# Tao

We're all on our way  
to something we don't know,  
Can't see, don't comprehend  
We're blind to see the mystery  
And beauty that lies  
Behind all things in life

# One

See the road rise before me  
Feel the strong wind kiss my face  
See the mountains move aside  
As I am one of the human race

Feel the wind blow through your hair  
On your knees in your despair  
Have no trust in darkened minds  
See yourself in a blaze of light  
We are one, we go on

Come with me to a different world  
No need for lies, no need to be  
Reach out and follow me  
We are one, we go on

Have no fear, we are strong  
We're just here where we belong  
Don't forsake when you are sore  
As you and I can't be ignored

## Revelation

I am the night in which you sleep  
I am the day in which you wake  
I am the shade in which you hide  
I tell the stories in your sleep  
Whisper the words you cannot find  
I am your forsaken mind

I am the light that shines on you  
I am the dark you're going through  
I am the prince in your dreams  
I kiss the kiss you're longing for  
And make you land just on your feet  
I am the god you always need

# Darkness

We knew it would end one day  
Never thought it would be that soon  
We could talk for days and nights  
Always fear it would cross our way

We talked about how life could end  
Would anything lie behind  
The black door was just ajar  
Then you slipped inside

It's been long ago since we talked  
It seems like forever  
Since you went away  
Since you went away

You're my shadow  
You're my guardian from darkness  
Where ever I will go I know you'll follow  
No reluctance and no complaints

Wrapped in silence  
I feel you're always near  
Every step in life you'll be there  
From my cradle to my grave

We knew it did end that day  
Never thought it would be that soon  
Still we talk for days and nights  
Your light shining on my way

When you see what I've become  
How I make it through the day  
Nobody can comfort me  
I still follow your way

You're my shadow  
You're my guardian from darkness  
Where ever I will go I know you'll follow  
No reluctance and no complaints

Wrapped in silence  
I feel you're always near  
Every step in life you'll be there  
From my cradle to my grave

## Surrender

You know how long I've waited  
For you to come this far  
You don't know how long I've waited  
To see the stars  
You don't know how long I've waited  
To see the stars  
You don't know how long I've waited  
To love you as you are

Open your eyes  
Open your heart  
Use no disguise  
Surrender to me

You don't know I've seen the suns  
Rise and fall  
Billions of worlds on fire  
Between the stars  
You don't know about my children  
Slain to death  
Do you remember their souls  
Glowing in the skies?

# Don't Be Afraid

We feel alone  
No one around  
See me  
Feel me

All we ever find  
Are questions, no answers  
Find me  
Understand me

We hope for more  
Praying and searching  
Save me  
Please save me

Don't be afraid  
Follow us with open eyes  
Don't be afraid  
We'll guide you through the night

Don't be afraid  
Don't deny us, don't forget  
Don't be afraid

We cry in silence  
No comfort for us  
Calm me  
Sooth me

We die alone  
No one to hold us  
Hold me  
Warm me

Talking to the wind  
We don't listen anymore  
Love me  
Please love me

## Heart & Soul

I play the game by your rules  
Because I know you've got the tools  
I'm not crying

You watch my steps  
My every move  
Because you're looking for some proof

From my heart into my soul  
I live my days without control  
Feelings sometimes draw me back  
To when my life was right on track

From my heart into my soul  
I live my days without a goal  
I wish the end was coming near  
And everything would be so clear

Consider your thoughts, so impure  
You won't succeed, that's for sure  
You stand there lying

You cannot win, don't you see  
That you're losing over me?

I feel you near me  
So near me

## Forever

Born with all you need  
And need is all you have  
Left out in the dark alone  
To see what you're made of

Nobody gives a hand  
When you're in deepest pain  
Crying both your eyes out  
And swallow all your pride

I'm longing for the day  
That you return to me again  
And see me in the brightest light  
That you have ever seen

With my heart open wide  
To love you once again  
Like I have done before  
But you chose to ignore

I'll wait here for evermore  
I'll wait here forever and ever more  
I'll wait here until you return to me  
I'll wait here for evermore

The path to me is winding  
But you will always notice  
Some presence of me around  
When you want to see

There will be a time  
That we will never part  
For this is my biggest gift to you:  
We were never two

## Into the Sun

I'm sure we met  
But can't remember when  
Was it here and now  
Or countless ages before

I see the flame  
That burns behind your eyes  
I smell your scent  
In times that are past

I'll fade away  
And gaze into the sun  
I can't remember  
When it all began

Drifting away  
Into endless realms of tears  
I'll close my eyes again  
Will you be here?

Slowly we will sense  
Remembrance deep inside  
Our lives and our love  
Fade into nothing

We will always meet again  
Until time stops forever  
How can I ever bare  
Losing you again?

## Promised Land

Beneath the burning sun I stand  
Believing all plans were so right  
With your warm blood on my hands  
Only for my promised land  
It seems that all now is in vain  
Fighting for this bloody reign  
In my heart it doesn't feel right  
Now everyone has died

Take me away from all this death  
Save me from pain and sure defeat  
Clean my face from your spilled blood  
Free my soul that screams to you

Heal my heart and hate underneath  
Lay my body to rest in peace  
Free my soul that screams to you  
and wash my hands in innocence

Troops are moving through the land  
Gunshots sound and people cry  
Calling names and throwing stones  
I spit my blood into the sand

No one left to take the blame  
Follow orders in this game  
Women cry and children die  
All for mankind's greatest lie

## Eternal Entity

What if I'd suddenly found out  
My reason for being  
Should I leave all things behind  
And reach for something new

What if someone would say to me  
Why I couldn't love another  
I would surely cry  
And blame myself for years

What if everything made sense  
A reason for pain and pleasure  
How can I ever make up  
For all mistakes in life?

I am an eternal entity  
Free of choice and thought  
No one can ever restrain me  
Boundless and free to be  
I am an eternal entity

I am an eternal entity  
Free of choice and thought  
I'm floating on this cosmic energy  
This circle of light surrounds me  
Like a blanket of stars

Every name, is known to me  
Deathless joy, no misery  
No one could ever dream  
Of a place like this

I am an eternal entity  
The light is very known to me  
Every life I lived  
Brought me higher up here
