Worlds Collide

Lies and deceit
Are all I hear
Clinging to life
Too numb with fear
And all I see

Is Conflict
Damage
Treason
War
Concrete
Jungles
Debris
And more

Dispute
Impair
Battle
Screams
Blinded
Deafness
Tragic
Scenes

I'm on your side
Come on let me in
It's cold outside
Let's begin
At times our worlds collide
But here within
I'm on your side
Let me in

We are so high
Too high to see
Chaos abound
So lost it seems
And all we know

Is difference
Hostiles
Tension
Fear
Betrayed
Impaired

I'm on your side
Come on let me in
It's cold outside
Let's begin
At times our worlds collide
But here within
I'm on your side
Let me in

Vision unclear
A deafness ensues
Is what your feeling
Close to the truth?

Notions of mistrust
I'll show you the truth
I want to be nearer
Want to be beside you

Concrete and Gravity

Concrete and gravity
Conquer in the end

I can see their fires
Burning out at sea
Their distant voices
Calling out for me

But I must confess
That I give into fear
I give into fear

Impact - Society
White noise growing still

As my vision blurs
My mouth is dry
Hands begin to shake
And I question why

That I can't resist
Take me out to sea

We are
Concrete and gravity

Can I let go
And set me free
Above the clouds
Too far to see
Here so high
The ground below
One last breath
I can't let go

I feel so low
I cannot breathe
Fears compounding
Will you rescue me?
I can't let go

We are
Concrete and gravity

The Last Resort

Right from the start
An end to my dreams
I'm feeling awake
But not as it seems

And I feel them getting closer
I feel them getting near
With every passing breath
As days turn into years
It's quiet like a stranger
It's hidden in your thoughts
Our hearts aware of danger
Is this the last resort?

Is this the last resort?
This is the last resort

Turning away
Away from the shame
Hide from yourself
I'm playing this game

And somewhere there is some place
That no one else can see
I crawl into the darkness
Inside my memory
In places left with anger
The facts somehow distort
A step away from danger
Is this the last resort?

Is this our last resort?
Is this the last resort?
This is our last resort

All the struggles
All of the tears
Nights spent in anguish
Alone with my fears
Many shinning moments
Sometimes we dare to dream
Slip into illusion
It's never what it seems

Sometimes we dare to dream
It's never what it seems
Sometimes we dare to dream
This is our last resort
This is our last resort
This is the last resort

In the Night

See the shadows
With the fading light
Dawn awakens
Ready for the night
In the silence
I can hear their screams
Here awake walking in my dreams

A taste of fear
A blinding light
Just what is real
Here in the night

When we die
We all die
Who survives
When we die

Feel the tremors
Hear the sounds of death
Life diminished
Here with every breath
Without warning
It will take my fear
Lying awake without you here

A taste of fear
A blinding light
Just what is real
Here in the night

The sound of fear
Is taking flight
Just what's revealed
Here in the night

When we die
We all die
Who survives
When we die

Wait for Me

There's no light
In the distance
Waves of fire
Crashing over me

A sense of dread
And some resistance
Every moment
Uncertainty

And what I fear
If all that's here
Is what it seems
When things falls apart
Wait for me
Wait for me

Twisted hands
Bodies in motion
Making sense
Of what we see

Will come to pass
The hurt your feeling
Certain moments
Are meant to be

But what I fear
If all that's here
Is what it seems
When things falls apart

And all I know
From what I've seen
Beneath the ruins
Wait for me

All this time
Without a trace
Without a cause
Somehow displaced

In the dark
Is what I feel
I want to know what's real

But all I fear
If all that's here
Is what it seems
When things fall apart
Wait for me

And all I've known
Is what I fear
When things fall apart

Wait for me

Parasite

Stale air surrounds me
I'm feeling uneasy
Here in the darkness
We do what we please

Gripped by desire
Lies we are feed
Sometimes we're feeling
Better of dead

Atmosphere
We're climbing higher
Beyond degrees
And breathing fire
Come with me
Slow we burn
Awash in flames
There's no return

Love's a parasite
There's no defence
Be my parasite

A sense of regret
Awareness is strange
Lost in the world
And feeling my age

From what I've learnt
I've nothing to loose
A loss of all feeling
Awaiting the muse

Atmosphere
We're climbing higher
Beyond degrees
And breathing fire
Come with me
What you've learnt
You'll soon forget
There's no return

Loves a parasite
There's no defence

Noise in My Head

A tale untrue
Of light and dark
And rumours we've heard
From lands so far

There's power in words
To sell you pretence
Narration begins
A line of defence

And all the lies
I've been feed
It's just noise in my head
In my head
From all the words
That you have said
It's just noise in my head

Forgotten dreams
Nightmare I am
Don't think for yourself
The ultimate plan

Soldiers of peace
And soldiers of war
There is no difference
When lines are drawn
And we're left torn

And all the lies
I've been feed
It's just noise in my head
In my head
And all the times
I've been mislead
It's just noise in my head

Actions and power
Terror suspects
Submit to safety
Protect from threats

It's just noise in my head

Man on Fire

All the words you told me
Everything thing you said
We're they just lies to have them
Play around in my head
I think it's the truth

I didn't know what else
What else to do
I should have known better
But I liked the things that you do

I'm a man on fire
Burning in your head
You left me for dead
You left me for dead

Set the world on fire
The skies are burning red
You left me for dead
When all is said

Everyday it felt like
Thought I'd lost my mind
Stumbled in the dark somewhere
I was hoping to find

Time again we're drifting
Walking in a dream
Just what it is we're searching for
When nothings what it seems

I haven't a clue

I didn't know what else
What else to do
We're in this together
And lust is a burden of truth

I'm a man on fire
Burning in your head
You left me for dead
You left me for dead

Set the world on fire
The skies are burning red
You left me for dead
When all is said

Living in my memory
Past and faded scenes
Haunting me to witness
Things that used to be

Quiet in this silence
Feeling like a fool
Too many nights I spent here
Lost and so confused

I should have known better
That pain is a version of truth

I'm a man on fire
Burning in your head
You left me for dead
You left me for dead

Set the world on fire
The skies are burning red
You left me for dead
When all is said

You left me for dead
You left me for dead

Inside the Cracks

What is it you want from me
I can never tell
And all you took from me
Now it just feels like hell

If everything I'm told
Is somehow true
Then all the time we spent
Means nothing to you

I feel destroyed
I'm not the man I used to be
You feel destroyed
Crushed beneath uncertainties
Feel destroyed

I search for the truth in words
Yet I could never see
I've fallen inside the cracks
From here I breath

Now everything I feared
Is somehow real
As waking moments pass
Your lies are revealed

I feel destroyed
I'm not the man I used to be
You feel destroyed
Crushed beneath uncertainty
I feel destroyed
Days have gone
Tranquility
Feel destroyed
I feel destroyed

Somehow connected
Yet torn apart
We're isolated
Here in the dark
Inside the cracks
We fall between
Inside the cracks
I cannot breath
Inside the cracks

Now everything I'm told
Is somehow true
Then all the time we spent
Means nothing to you

Apes Astronauts

Our conservation
We shall remain
A dying species
Killed by the strain
We're far away

A lonely planet
We'll find a new
World to inhabit
We'll hide from you

And the truth
Our plan is clear
We're not from here

Apes astronauts
Holy men
Cosmonauts
Apes astronauts
Signs of life
Psychonauts

A population
A million years
We walk among you
Yes we are here
Now I'm awake

I'm isolated
I feel obscure
No sense of longing
My thoughts confused
And I fear
One thing is clear
I'm not from here

Feelings of loss
So lost and confused
Alone in a world
I'm so far removed

A life unintended
Born into lies
Avoid all emotion
In time we die

Apes astronauts
Apes cosmonauts
A time to die
Apes astronauts
Holy men cosmonauts
Cosmonauts
Psychonauts

Never Again

There's a line deep here on my skin
Signs of life
From where it begins
I know I'm here

Violent creatures playing on my fears
Waking moments go by as years
And true
I'd wait for you

But the feeling is hurt and bruised
I'll walk on this earth a feeling anew

I fear no regret
The dreams we forget
I'm drowning in sweat
The dreams we forget

I awake my feet on the ground
But all I hear a deafening sound
And hope it fades

Words you say playing on my mind
Mount to nothing a waste of time
That's clear
Yet still I'm here

But the fear and the pain ensues
I'll walk on this earth I'm breathing anew

I fear no regret
The dreams we forget
I'm drowning in sweat
The dreams we forget

I have no regret
The dreams we forget
In moments of rest
I want to forget

Never again
