Tuning in Again

I'm trying to get through to you I'm tuning in to the frequency of your soul

In This Together

Should I've seen this coming
Should I've known this
Shouldn't have let it happen
My mistake alright
Stuck again
Doing nothing (Doing nothing)
Too alike yet far apart
What felt so good once is breaking me
And tearing us apart again

Don't you see? We're in this together You and me One on one forever

Don't you see? We're in this together You and me One on one forever

I know it's self-inflicted
We're way too desperate
Way too addicted
But I can't help the way I feel
I know it's time to be strong
Now when all hope is gone
And when what felt so good once
Is breaking me
And tearing us apart again

Don't you see? We're in this together You and me One on one forever

Don't you see? We're in this together You and me One on one forever

And in your troubled eyes I see
Someone who carried me somehow
Like footprints in the sand
You've been behind me all along
We got it wrong from the start
Now it's you and me
Let's hit it on
Don't you see?
It's you and me against the world
We're in this together
One on one forever

Love to Blame

We've gone a long way while learning Still our hearts kept on burning We've gone right, we've gone straight and ended up far out

We've reaped the fruits of deception Opened the doors of perception And burned down all the bridges we came across

When will you be whole again? We've both been down that road Going nowhere Still you ask "Is love to blame?"

You Keep Me From Breaking Apart

I'm only here because of you And because you never left me behind Saying thanks in my own way I say it with a song that soon will fade away

You keep me from breaking apart

You understand the chaos in my head Only you understand every word I say You restore my soul and erase all hurt The hurt that only you can take away

You keep me from breaking apart

Cambodia

Well he was Thailand based She was an airforce wife He used to fly weekends It was the easy life But then it turned around And he began to change She didn't wonder then She didn't think it strange But then he got a call He had to leave that night He couldn't say too much But it would be alright He didn't need to pack They'd meet the next night He had a job to do Flying to Cambodia

And as the nights passed by She tried to trace the past The way he used to look The way he used to laugh I guess she'll never know What got inside his soul She couldn't make it out Just couldn't take it all He had the saddest eyes The girl had ever seen He used to cry some nights As though he lived a dream And as she held him close He used to search her face As though she knew the truth Lost inside Cambodia

But then a call came through
They said he'd soon be home
She had to pack a case
And they would make a rendez-vous
But now a year has passed
And not a single word
And all the love she knew
Has disappeared out in the haze
Cambodia - Don't cry now - No tears now

And now the years have passed With not a single word But there is only one thing left I know for sure She won't see his face again

Back on Track

I hate to play my part
In this twisted odyssey
Which seems to last forever
I'm a disharmonic key
In a wicked symphony
It seems the more I hurt the better

One day you'll want me again One day you'll love me again One day and we will be back on track again

(Back on track again) (Back on track again)

It's way too dark to see
I'm drained of energy
Corrupted and exploited
I've cried enough for you
You've cried enough over me
The never-ending game we play

One day you'll want me again One day you'll love me again One day and we will be back on track again

One day you'll want me again One day you'll love me again One day and we will be back on track again

(Back on track again) (Back on track again)

Tuning in to the Frequency of Your Soul

I'm trying to get through to you I'm tuning in (to) the frequency of your soul Why won't you hear? Why won't you feel? I'm tuning in to the frequency of your soul

It makes no sense, you / we won't connect The more I push the more you reject

Mercy Kill

Tell it to my face
Stab me while you can
You rip my heart open
And so we crash land again
Stumbling forward
Just a heart of gold
And a fist of glass
And so on it goes
The sharpest tool kills the fainthearted fool
Not so long ago...

(Not so long ago...)

Just blame it all on me
Would be better off being a dead man
Lay it all on me
Destroy me while you still can
Not so long ago
It backfired and you ran
In search of higher love
And a new beginning
Now you're still dwelling on the past
I'm telling you come on
I would still take a bullet for you

(Not so long ago...)

Not so long ago
It backfired and you ran
In search of higher love
And a new beginning
Now you're still dwelling on the past
I'm telling you come on...

(Not so long ago...)

Just blame it all on me
Would be better off being a dead man
Lay it all on me
Destroy me while you still can
Not so long ago
It backfired and you ran
In search of higher love
And a new beginning
Now you're still dwelling on the past
I'm telling you come on
I would still take a bullet for you

Lost in Translation

Fragile you are And yet the strongest by far Who's to save us now that you've turned weak

I can see it in your eyes
I can feel it in my gut
Now we've really reached
the point of no return

We've all been traumatized We were all a part of the revolution We call the truth a lie Too much got lost in translation

From my heart to your ears Transforming words to tears As vibrations of a string become a sound

I realize we're frail burnt-out and pale do you think we will ever learn to love again?

We've all been traumatized
We were all a part of the revolution
We call the truth a lie
Too much got lost in translation

Maze

(You're out there, I'm still in here Hoping this day would never come Now it's time to get away I was hoping this day would never come)

Will you fight on my side?
Will you stand by me until you fall?
I'm the deaf, you're the blind
Lead me out of this maze
I'm out of time

You're out there, I'm still in here Hoping this day would never come Now it's time to get away I was hoping this day would never come

(Get me out of this maze)

Into the Unknown

We got lost inside a storm dazed and hurt we fought it through drawn to the light both detached heading into the unknown

Whenever you wanted me I was there for you and by a torch of faith I set myself on fire

How long must I wait for you? I just can't get you off my mind) How long must I wait for you? (being apart is wasting time)

There's a voice inside my head Telling me to go on alone That I'd stand a better chance To get through this on my own

Whenever you wanted me Well, I was there for you and by a torch of faith I set myself on fire

How long must I wait for you? (I just can't get you off my mind) How long must I wait for you? being apart is wasting time)

Shine On

In a garden in the house of love, sitting lonely on a plastic chair The sun is cruel when he hides away, I need a sister - I'll just stay A little girl, a little guy - in a little church or in a school Little Jesus are you watching me, I'm so young - just eighteen

She, she, she Shine On Shine On Shine On

In a garden in a house of love, there's nothing real just a coat of arms I'm not the pleasure that I used to be - so young - just eighteen

She, she, she Shine On Shine On Shine On

I don't know why I dream this way
The sky is purple and things are right every day
I don't know, it's just this world's so far away
But I won't fight, and I won't hate
Well not today

In a garden in the house of love Sitting lonely on a plastic chair The sun is cruel when he hides away

Shine On... Shine On Shine On

...and on... and on...

Shine On Shine Shine Shine Shine
