Weight of the World

Pleased to meet you, we came to drop bombs on you Shatter illusions, connect the dots and yell the truth They'll trade fame, sex and gold For a piece of your soul

Deceit, it will kill ya
Defeat, it will show what you're made of
Retreat, never surrender
You say you carry the weight of the world
Guess who's carrying you...

So no one told you they've been lying to us all along They thought control us, 1984 is now Imagine there's no Lennon It might be hard, but give it a try

Deceit, it will kill ya
Defeat, it will show what you're made of
Retreat, never surrender
You say you carry the weight of the world
Guess who's carrying you...

Apollo (Live on Your TV)

The sun is up mission begins suits and helmets on now we look like twins are we going to succeed, I wonder then they shut the door and engines start to roar

Cameras rolling and we're ready to go!

Live on your TV defying gravity There's a pale blue planet beneath us We're live on your TV dictating history knowing that they'll never believe us

Staring at a paper moon Thinking to myself, I wish we'd go home soon inside the eagle's shell we float in space we know just what to do waiting for our cue

Cameras rolling and we're ready to go!

Live on your TV defying gravity There's a pale blue planet beneath us We're live on your TV dictating history knowing that they'll never believe us

Spread the news from east to west greatest wonder of our time we got it on film

Asleep or Awake?

What's with your head? Controlled, dumbed down Since your life began They play us like fools We sell out to be in A "bread and circus" game

They dumbed us down and slowly...

Changed our thoughts Now we believe in nothing But never-ending wars In which we're all gonna lose

What's going on, you're sedated again? Already wasted half your life Stone cold hearted and arrogant They teach "Ignorance is bliss"

They dumbed us down and slowly...

Changed our thoughts Now we believe in nothing But never-ending wars In which we're all gonna lose

Now I lay me down to rest But I can't get no sleep It's getting late, you still won't listen I'd better stay awake

They dumbed us down and slowly...

Changed our thoughts
Now we believe in nothing
But never-ending wars
In which we're all gonna lose (ourselves)

Incompatible

They say reality is an illusion
We all create our own
So who is right or wrong?
Yes, I am still searching for the truth
When did you stop looking?
Where did we go wrong?

Every time you create a problem You have the remedy The same old strategy I ate the red pill, no turning back The gloves are off now Where did we go wrong? Where did it all go wrong?

The fruit of my imagination
A blessing or a curse
I'm a stranger in a plastic nation
Stuck in reverse
Take a look from my perspective
It's so obvious to me
I can't stand this narrow-mindedness
We'll always disagree
We're incompatible

For all this time
They've deceived the nations
It always makes me sick
I don't belong here
If I turn off, then engage me please
Count my heartbeat...
Where did we go wrong?

Molded to fit into a system A brain-dead society No questions being asked Our minds are bent Raise your fists and yell "Power to the sheeple!" Where did we go wrong?

The fruit of my imagination
A blessing or a curse
I'm a stranger in a plastic nation
Stuck in reverse
Take a look from my perspective
It's so obvious to me
I can't stand this narrow-mindedness
We'll always disagree
We're incompatible

United States of Credit

I pledge allegiance to the card, the United States of Credit One nation under debt with bankruptcies, late fee's and high interest for all

Shadow

Staring at the ceiling sorting out my thoughts Weighing every word I want to say Darkness fills the room, it's closing in on us The words all come out wrong again, I let you down

If I could just trust more I'd dare to speak the truth Wish I could give one hundred percent It's sad and unfair, you too are suffering When I'm the guilty you are the innocent

For way too long I've been merely a shadow of my true self I'm in despair I'm beyond repair

A shadow hanging over me it clouds my mind Preventing any sane thoughts to occur A silhouette is cast on your side of the bed Reminding me of what I have become

For way too long I've been merely a shadow of my true self I'm in despair I'm beyond repair

Green Queen

You broke my heart And you made me blind You tied my hands so that I couldn't fight Yeah, you broke my heart And made me blind You cursed my path now I can't find...

Restless moving on It's a battle for your life, you better run Together they come strong Now you realize what's been going on

You broke my heart
And you made me blind
You tied my hands so that I couldn't fight
Yeah, you broke my heart
And made me blind
You cursed my path now I can't find... peace of mind

Poison on your lip Expecting someone else to die from it She stole another soul Trapped, imprisoned under her control

You're exposed now, I'm back to "square one" again So much clearer now, for good I'm breaking the chain

I don't need you, I've fallen for a scam I never asked you to come into my life, you destroyed what I am

When you broke my heart
And you made me blind
You tied my hands so that I couldn't fight
Yeah, you broke my heart
And made me blind
You cursed my path now I can't find... Peace of mind

Butterfly Defect

Watching from above The deep blue seas The yellow fields And all the green

But in between I see grey smoke Cancer like black spots Looks just like LA

But there is much more There is much more to this Than you can see

There is much more to this I guarantee - just wait and see

The aeroplanes flying by They carry paperclips And young blond girls

There is much more There is much more to this Have a closer look - then you'll see

State of Your Heart (Sh*t End of the Deal)

I'd give you the strength to carry on If I had any strength myself Things have changed from bad to worse Somehow we never blamed ourselves

Should have taught you how to deal with things But back then I had no clue Now demons from our past have come haunting you

It's killing me - To think of how it used to be
The state of your heart
The bitter hurt yet beautiful
We had our roots pulled up, nothing's grounding us
We got the shit end of the deal
(Forever)

Rocket Calculator

They will burn us at stakes, tell us we're fakes Inferior insane They'll break every rule, make us their tool Corrupt us, make us vain

Ahead of your time, you poked out your eye Then rose to fame As blind as a bat, unaware of the fact You're just a pawn in their game

I'm over here on the right \rightarrow Ready to fight No gnashing of teeth for me

Pitch Black/Heat Death

Pitch black - I'm easy prey tonight You know how it goes, you can't deny That's right, I sell out every time It's going downhill, but still I climb

I got two strong hands and some good genes, I'll survive Still I'm in the wrong lane cause I don't drive I tell myself "out of sight, out of mind" Have to learn the hard way every time

I had to learn it the hard way I let you go, I let you run away...

Heat death - Can't wait till you get here I'm gonna pack my stuff and disappear You know it stings my heart and crushes my pride But unlike me he'll stay by your side

You know it's only me against the world this time Too bad being stubborn is a crime Found a note, written to me, I guess It said "I died for you, cause you're a mess"

I had to learn it the hard way I let you go, I let you run away...

Black Versus White

The piper is playing just the right song Pretty faces smiling so convincing They are all doing it, they got it all What are you waiting for, follow the leader

It all seems so perfect, make love not war Pick and choose a cure for boredom We're so close to the edge now, but nobody cares Far away, in the arms of morpheus

We all agree this ship is going down And what goes around comes around Running away at the speed of light Won't keep us safe - black versus white...

Sit back and enjoy the very last show Watch the prophecies unfold before us Step back for a while, look into their eyes "Now it's dark", the party is over

We all agree this ship is going down And what goes around comes around Running away at the speed of light Won't keep us safe - black versus white...

Trash

Maybe, maybe it's the clothes we wear, The tasteless bracelets and the dye in our hair, Maybe it's our kookiness, Or maybe, maybe it's our nowhere towns, Our nothing places and our cellophane sounds, Maybe it's our looseness,

But we're trash, you and me, We're the litter on the breeze, We're the lovers on the streets, Just trash, me and you, It's in everything we do, It's in everything we do...

Maybe, maybe it's the things we say,
The words we've heard and the music we play,
Maybe it's our cheapness,
Or maybe, maybe it's the times we1ve had,
The lazy days and the crazes and the fads,
Maybe it's our sweetness,

But we're trash, you and me, We're the litter on the breeze, We're the lovers on the streets, Just trash, me and you, It's in everything we do, It's in everything we do

But we're trash, you and me, We're the lovers on the streets, We're the litter on the breeze, Just trash, me and you, It's in everything we do, It's in everything we do...
