I Don't Believe

This is no dream, this is no lie
It's just the truth about this time
And all the things that we should know

Nobody cares about the weak
But everybody loves the freak
The more you speak, the less you show
And this world makes me sad

Truly I could make things right
And change all the things now in my life
But I don't...
I don't believe in you
Would you step into the light
And show your effort to save a life
But I don't...
I don't believe in you

Some people try to escape the war
Some people just try to ignore
And everybody knows the truth

So don't be scared just for today
And try to walk another way
It's time to show compassion now
Not only in your head
This world makes me sad

Truly I could make things right
And change all the things now in my life
But I don't...
I don't believe in you
Would you step into the light
And show your effort to save a life
But I don't...
I don't believe in you

Visions

We gotta make our own decisions
Nobody can tell us what to do
Keep your eyes on your strongest visions
The right people will see it too

The whole world just keeps on turning
But it's high-time for a break
You've been tired but now you're burning
You still breathe and you're awake

There are things we can't explain
But the hope will still remain
Now it's time to make a change
In this world that seems so strange
And I'm sure that this could be
Our fate and destiny
Cause we're all the same right now
We've gotta make it somehow

Just try to keep your passion
Cause your light is shining through
Let this thought be your obsession
Cause your mind can make it true

The whole world just keeps on turning
But it's high-time for a break
You've been tired but now you're burning
You still breathe and you're awake

Down Below

Don't tell me lies
I know you did it all before
Don't treat me like that 'cause it hurts
Don't waste my time
If there is something that I should know
Tell me the truth and let me go
Just let me go!

There is a time to say goodbye
To leave the sadness in my life
And everything I used to know
Will be down below
There will be hope there will be light
Banish the darkness in the night
This is the time to let you know
You are down below

These words are cruel
But they are necessary now
Cause it's all over and it's time
Just look outside
The clouds are coming closer now
It's time to run and get away
Just get away!
Just get away!

This is the time to let you know
You are down below

Heavenly

I take a ride on the darkest night
I'm much too far from home
All the ghosts that I fear most
Just left me all alone
I never thought this day would come
And I never felt this way
Yesterday I've been so scared
But I don't care for today

Heavenly I'm on my way
I just can't wait to see you there
And I believe that this could be
A brand new life without despair
Suddenly I see your face
You're lost in space come over here
Finally I found the place
I've got the grace and I don't fear

I couldn't breathe and I've been so tired
So I had to change my way
I found myself living in a cage
But right now I came out to play
I have to try before I die
And I never felt so good
My inner child is breaking out
I should stop If I could

And I don't fear...
And I don't fear...

Walked the Line

I can't remember anything you've said
I try to hide it and I smile instead
I hope and pray that you are by my side
I'm restless and I can't sleep at night
My mind's weird and I try to keep control

And I always walked the line
I guess I did it all the time
It was never good for me
I surrendered now I see
Everybody has to choose
How to live without excuse
There's no time to hesitate
'Cause I don't believe in fate

"Aber wenn man die Wirklichkeit nicht mehr als das erkennt, was sie ist kann man daran zerbrechen!"

I'm on the run - I try to get away
Leave me alone - I don't wanna stay
I can run but I can't hide
I can't get no sleep at night
I'm sick and tired - There's nothing I can do

No, I don't believe in fate

Regret & Testify

Now I've got you down on your knees
I hear you praying, you beg me please
Not to hurt you or even kill
I see you crawling because it's my will
Down in the dust, that's where you are
You try to reach me but I'm too far
Your hopes and dreams I will ignore
'Cause I'm my best friend, and that's for sure

Look at me as I can fly
I came down just for a while
I don't care about you at all
I just want to see you fall
So regret and testify
Because your time is passing by
Close your eyes and you will see
That you've lost your sanity

Getting closer - I smell your skin
I hear you screaming so full of sin
And when I get you I'll let you know
That I'm above you - You're down below
Down in the dust that's where you are
You try to reach me but I'm too far
Your hopes and dreams I will ignore
'Cause I'm my best friend and that's for sure
You are my best friend and that's for sure

The Start of Something New

Once upon there was a time
I remembered that you were mine
Time is fading, time goes by
Searching for the reason why
I didn't try to let you know

You hoped that I could see
You always cared for me
And I don't even tried
To find the reason why
And then you walked away
With nothing left to say
I know that it's too late
To doubt and hesitate

I read the news and saw your face
You left the world to another place
You left it all behind
I hope to see you once again
The start of something new is not the end
Do you comprehend?
I hope you understand
I hope you understand

You hoped that I could see
You always cared for me
And I don't even tried
To find the reason why

To find the reason why

To doubt and hesitate

Murder Fantasies

This is for all those complicated people
For everyone who's standing in my way
I'm sick and tired of all the stupid people
They make me feel like I should go away
Murder fantasies are in my head
They speak to me and try to take control
Even when I'm lying in my bed
It takes my mind and it burns my soul

So get out of my way!
There's nothing left to say!
Don't want you here to stay!
So get out of my way!

Everybody show me your attention
I'm your god and I will shoot you down
This is the day I live my murder fantasies
Then I will leave and I'll blow up this town

I saw the news about me in the TV
It feels so good I love the mess around
And I won't stop until you all adore me
Now are you ready for the second round
This is for all those complicated people
For everyone who's standing in my way
I'm sick and tired of all the stupid people
It makes me feel like I should go away

So get out of my way!
There's nothing left to say!
Don't want you here to stay!
So get out of my way!

Then I will leave and I'll blow up this town
So get out of my way!

Then I will leave and I'll blow up this town
Then I will leave and I'll blow up this town

So get out of my way!
There's nothing left to say!
Don't want you here to stay!
So get out of my way!

Obsession

Now I survived another day
And I need every word you say
Forever you and me in youth
This is my one and only truth

I came to see you once again
I don't believe that this should end
Just close your eyes and don't you fear
The whole world cause I am near

I came to see you once again
I don't believe that this should end
Just close your eyes and don't you fear
The whole world cause I am near
And when you go away from me
I will be restless till I see
The one I want that I adore
The reason that I'm living for

This is our last day on earth
When will we meet again
Then you will get what you deserve
I don't really care what people say
Cause I'm the one who knows
Who knows the only way

Staring at the Sun

Everything I used to know
Were the things you told me
And I almost disappeared
But you came to save me
Now you left me incomplete
And I'm searching for you
Another dawn is breaking through

I'm staring at the sun
And hope that you will come
I'm staring at the sun

Everything I used to know
Were the things you told me
And I almost disappeared
But you came to save me
I can see you in my dreams
I don't wanna wake up
Another dawn is breaking through

I'm staring at the sun
And hope that you will come
I'm walking all alone
And try to find my home
I'm staring at the sun
See upcoming pop shows

I'm staring at the sun
And hope that you will come
I'm walking all alone
And try to find my home

I'm staring at the sun

Farewell Letter

Now I am cold
So hold my hand again
I must have told
These words to you, my friend
This is the truth
You are so close to me
I've lost my youth
And I don't know what will be
No, I don't know what will be
But you're still so close to me

The end is near
It's darker than before
And have no fear
There's gonna be some more
Now I am old
And I can see
It was my fault
It was the pride that paralyzed me
What can I do now?
Now I apologize
I have to go now
I have to pay the price
I have to pay the price
I have to pay the price
Now I apologize
I have to pay the price
