# Accelerate

Here comes the rush  
that splits my heart in two  
one daunted, one lush  
to support and subdue  
I'm on the edge  
going too fast to breathe  
too fast but to hold on  
too fast but to seethe

Accelerate  
Digest the rush  
Feel free for once  
This is life  
Accelerate  
Near the edge  
Unsafe for once  
This is life  
Accelerate  
Headlights off  
Pity the ones  
Without life  
Accelerate  
Eyes wide shut  
Alive for once  
This is life

Feel the pulse  
blood rushes through your veins  
for once alive  
as woken from the dead  
we have found the pace  
together invincible  
we are here to stay  
awaken in a new world

## Before I'll Give In

Should I be scared  
How do you all fight the thoughts about death  
The feeling of emptiness in our hearts  
Do we exist to be or go on to a higher place  
Or a lower and not so loved, we can call it hell

When I die will the emptiness eat me like alive  
Will there be a tunnel of light like a sign  
To guide the way to something greater than the mind  
I want some answers fill me in before I'll die

Who's to say how we choose the way we want to go  
Maybe even possible to reborn in different shapes  
It's all a question mark printed in my head  
I have to confess my sins before I'll give in

When I die will the emptiness eat me like alive  
Will there be a tunnel of light like a sign  
To guide the way to something greater than the mind  
I want some answers fill me in before I'll die

Will the emptiness eat me like alive  
Will there be a tunnel of light like a sign  
To guide the way to something greater than the mind  
I want some answers fill me in before I'll die

## Black (single edit)

Black eyes, black lips, black nails  
We're dancing a slow dance  
Kiss of ash, my tongue fails  
At the sharp blade of romance

Black eyes, black lips, black nails  
We're dancing a slow dance  
Kiss of ash, my tongue fails  
At the sharp blade of romance

Tongue of ash catches drop  
From sharp and bloody steel  
We've danced too long to ever stop  
It's time for a broken mind to heal

Black stare could shatter stone  
Black knife rests, white body prone  
Dark angels watch the play below  
Black soul wants to die young  
Black lips smile when dark tongue  
Tastes the wine from your kind

Black eyes, black lips, black nails  
We're dancing a slow dance  
Kiss of ash, my tongue fails  
At the sharp blade of romance

Black eyes, black lips, black nails  
We're dancing a slow dance  
Kiss of ash, my tongue fails  
At the sharp blade of romance

Crimson tongue catches drop  
From nails like razor blades  
The dance is done, the game is won  
It's time for a broken heart to feel

Black eyes, black lips, black nails  
We're dancing a slow dance  
Kiss of ash, my tongue fails  
At the sharp blade of romance

Black eyes, black lips, black nails  
We're dancing a slow dance  
Kiss of ash, my tongue fails  
At the sharp blade of romance

Black eyes  
Black lips

## Colony 5 (single edit)

Civil wars over the world, powerful unions interfere  
It's a dangerous situation for us all  
Atomic bombs are ready to be launched  
It's time we unite, it's time we scan the universe  
We had to move on

We seek colony 5

We have the technology for destruction  
Can we use that knowledge to survive?  
Reverse the process and make something great  
Our calling is not to die  
We have to find a way to survive

We seek colony 5  
The time is right  
Last chance for mankind  
To survive

We seek colony 5  
The time is right  
Last chance for mankind  
To survive

We seek colony 5

Send a satellite out in space to find the answers  
Are we alone, can we find an equal place?  
We have to move along before it's too late  
Unite, lay down your weapons  
This is the chance to find a better way

We have the technology for destruction  
Can we use that knowledge to survive?  
Reverse the process and make something great  
Our calling is not to die  
We have to find a way to survive

We have the technology for destruction  
Can we use that knowledge to survive?  
Reverse the process and make something great  
Our calling is not to die  
We have to find a way to survive

# Fate

This must be fate  
like on the movie screens  
it's the first time for all  
is this really what I need?

Come back to me  
You belong here  
All the gods of this age  
will become enraged  
if you are not by my side

Give me time  
Give me your life  
I'll give you mine  
Two lovers entwined

This is fate  
it has to happen  
it's bound to be  
I know you're not free  
but fate can't be too late

Give me time  
Give me your life  
I'll give you mine  
Two lovers entwined

# Follow Your Heart

My mind is clear  
My place is here  
I'll stand my ground  
I'll never leave  
I'm not a puppet on a string

Stand up for yourself  
Stand up for your life  
Make your own path  
Follow your heart

I don't need someone to guide me through my life  
I don't need someone to see things through my eyes  
Although the goals I have are out of sight  
I have to find them myself, this is my own fight

Please leave it alone  
You are not my clone  
We have different goals  
and skills unknown  
and I would like to discover my own

Stand up for yourself  
Stand up for your life  
Make your own path  
Follow your heart

## Hate (single edit)

I've seen this before  
But not so close to heart  
So much anger to release  
The chemicals put it there

Life is not a movie  
This is fact, not fiction  
Push the trigger  
And kill your addiction

How does it feel  
To be like you  
How can you hate  
The way you do

Time heals disputes  
At least it does for me  
No anger left to release  
I've felt it disappear

Crawl out of your misery  
And defeat your insanity  
Don't push the trigger  
'Cause you are free

# Last Chance

Life is hard, for some people it's even a hell  
The smell of lack of hope every day I pass this way  
Begging for a way to get its own addiction relieved  
No minor roof over its head covered with some plastic bags  
Constitutes its bed

The last chance  
Look inside you  
Analyze yourself  
Review your life  
Find out went wrong  
What is causing you this sad song?

Life is hard, for some people it's even a hell  
To wake up spending the next hours working somewhere  
Most people get used to this way of life  
Only a few try to break the chain  
Break themselves free from this useless way to find them with no fear

The last chance  
Look inside you  
Analyze yourself  
Review your life  
Find out what went wrong  
What is causing you this sad song?

Let your sense show you the way  
Look inside you  
Review your life  
Find out what went wrong  
What is causing you this sad song?

Let your sense show you the way  
Look inside you

The last chance  
The last chance  
The last chance  
The last chance

# Liquid Love

Can't believe my eyes  
She's so sweet and still so clean  
Had to make my move  
I had to get you this once  
No time to lose

Do you mind if I put my arms around you  
Would you be pleased if I took you home with me  
Do you mind if I gave you a kiss and touch you  
Then we make love until the sun will rise

And we wake up, looking at each other try to remember  
But the headache reminds me how drunk I was  
You are not so sweet and not so clean anymore  
I've got to get out  
Please can you leave

Do you mind if I put my arms around you  
Would you be pleased if I took you home with me  
Do you mind if I gave you a kiss and touch you  
Then we make love until the sun will rise

Do you mind (Do you mind)  
Do you mind (Do you mind)

Do you mind if I put my arms around you  
Would you be pleased if I took you home with me  
Do you mind if I gave you a kiss and touch you  
Then we make love until the sun will rise

Do you mind if I put my arms around you  
Would you be pleased if I took you home with me  
Do you mind if I gave you a kiss and touch you  
Then we make love until the sun will rise

Do you mind if I put my arms around you  
Would you be pleased if I took you home with me  
Do you mind if I gave you a kiss and touch you  
Then we make love until the sun will rise

Do you mind

# My World

Dim the light, it hurts my eyes  
It scars my skin and shatter my lies,  
Fold the blinds, let's stay inside

Take my hand, I'll give you strength  
Come with me, we'll make our way,  
Through the light, into the night

Welcome to my world,  
It's calm and cold  
Welcome to my soul,  
It's withered and old

Welcome to my mind,  
Tread lightly and slow  
Welcome to my love,  
Touch it and make it grow

We belong to this, this protected room  
The world outside is for the ones,  
That's not afraid to lose

So take my hand, you are invited in  
Share my darkness and my lust,  
I'm filled to the brim

Welcome to my world,  
It's calm and cold  
Welcome to my soul,  
It's withered and old

Welcome to my mind,  
Tread lightly and slow  
Welcome to my love,  
Touch it and make it grow

Welcome to my world,  
It's calm and cold  
Welcome to my soul,  
It's withered and old

Welcome to my mind,  
Tread lightly and slow  
Welcome to my love,  
Touch it and make it grow

# Nocturnal

I'm getting up, it's oh so cold  
Come over here and warm my soul  
You are so hot; I take what you've got  
And I ask for more, never been so cold before

I can climb the mountains I can sail on the seas  
But only if you have faith in me

The clock strikes noon, dinner is breakfast  
I'm feeling alright  
I hate my life but love is a light  
When day becomes night I'm feeling all right

# Science

Science, eternal life,  
clones replacing each other on a line  
Who are you, deceiving nature?  
Who are you?  
You're not a god!

An enhanced gene pool, perfection in the bin  
No need for schools, he who dares wins  
We have turned biology into technology  
We have the factory but not the entire recipe

Breeding humans; mutants for special needs  
A perfect DNA, a killing machine  
Superior species, developed for special needs  
A nature in chaos, science or madness  
we fail to see (the difference)

White coated hubris, creating life  
No first kiss, you construct your own wife  
Who are you, eluding nature?  
Who are you?  
You're the modern God!

# Second Hand

I always see you as my queen  
I could do everything for you to make you pleased  
I saw you as the most precious thing I could have  
I thought you were reflecting the same feelings I do for you  
But, I was wrong  
Yeah, I was wrong  
I was second hand to you all along

I saw you sneak away in a car  
With the darkest windows but even then  
I could see it so bright like stars  
I followed you like the shadow I am  
And what I saw tore me apart  
I was your second choice and not your star

And now I can see it there when I held your hand  
I can feel the dirt you're covered in all along  
I despise you I don't like you anymore  
And still I held on to you like your second hand clothes

And now I can see it there when I held your hand  
I can feel the dirt you're covered in all along  
I despise you I don't like you anymore  
And still I held on to you like your second hand clothes

And now I can see it there when I held your hand  
I can feel the dirt you're covered in all along  
I despise you I don't like you anymore  
And still I held on to you like your second hand clothes

# Trackers

They're closing in I feel their breath  
I cannot live without the secrets of my past  
Their scent is strong my will is weak  
They read my mind I cannot hide

Kill my sorrow I could die tomorrow  
If you don't forgive me, my heart is still in me  
I run through the night and leave neon-trails  
My fluorescent blood shines through my skin  
My heart is a beacon they're homing in

From probing tongues or eager lips  
I brace myself from their fingertips  
They touch my skin my shield is down  
My eyes are black  
my darkness is back

Kill my sorrow my soul isn't borrowed  
So please forgive me, the trackers have set me free
