Accelerate

Here comes the rush that splits my heart in two one daunted, one lush to support and subdue I'm on the edge going too fast to breathe too fast but to hold on too fast but to seethe

Accelerate Digest the rush Feel free for once This is life Accelerate Near the edge Unsafe for once This is life Accelerate Headlights off Pity the ones Without life Accelerate Eyes wide shut Alive for once This is life

Feel the pulse blood rushes through your veins for once alive as woken from the dead we have found the pace together invincible we are here to stay awaken in a new world

Before I'll Give In

Should I be scared How do you all fight the thoughts about death The feeling of emptiness in our hearts Do we exist to be or go on to a higher place Or a lower and not so loved, we can call it hell

When I die will the emptiness eat me like alive Will there be a tunnel of light like a sign To guide the way to something greater than the mind I want some answers fill me in before I'll die

Who's to say how we choose the way we want to go Maybe even possible to reborn in different shapes It's all a question mark printed in my head I have to confess my sins before I'll give in

When I die will the emptiness eat me like alive Will there be a tunnel of light like a sign To guide the way to something greater than the mind I want some answers fill me in before I'll die

Will the emptiness eat me like alive Will there be a tunnel of light like a sign To guide the way to something greater than the mind I want some answers fill me in before I'll die

Black (single edit)

Black eyes, black lips, black nails We're dancing a slow dance Kiss of ash, my tongue fails At the sharp blade of romance

Black eyes, black lips, black nails We're dancing a slow dance Kiss of ash, my tongue fails At the sharp blade of romance

Tongue of ash catches drop From sharp and bloody steel We've danced too long to ever stop It's time for a broken mind to heal

Black stare could shatter stone Black knife rests, white body prone Dark angels watch the play below Black soul wants to die young Black lips smile when dark tongue Tastes the wine from your kind

Black eyes, black lips, black nails We're dancing a slow dance Kiss of ash, my tongue fails At the sharp blade of romance

Black eyes, black lips, black nails We're dancing a slow dance Kiss of ash, my tongue fails At the sharp blade of romance

Crimson tongue catches drop From nails like razor blades The dance is done, the game is won It's time for a broken heart to feel

Black eyes, black lips, black nails We're dancing a slow dance Kiss of ash, my tongue fails At the sharp blade of romance

Black eyes, black lips, black nails We're dancing a slow dance Kiss of ash, my tongue fails At the sharp blade of romance

Colony 5 (single edit)

Civil wars over the world, powerful unions interfere It's a dangerous situation for us all Atomic bombs are ready to be launched It's time we unite, it's time we scan the universe We had to move on

We seek colony 5

We have the technology for destruction Can we use that knowledge to survive? Reverse the process and make something great Our calling is not to die We have to find a way to survive

We seek colony 5 The time is right Last chance for mankind To survive

We seek colony 5 The time is right Last chance for mankind To survive

We seek colony 5

Send a satellite out in space to find the answers Are we alone, can we find an equal place? We have to move along before it's too late Unite, lay down your weapons This is the chance to find a better way

We have the technology for destruction Can we use that knowledge to survive? Reverse the process and make something great Our calling is not to die We have to find a way to survive

We have the technology for destruction Can we use that knowledge to survive? Reverse the process and make something great Our calling is not to die We have to find a way to survive

Fate

This must be fate like on the movie screens it's the first time for all is this really what I need?

Come back to me You belong here All the gods of this age will become enraged if you are not by my side

Give me time Give me your life I'll give you mine Two lovers entwined

This is fate it has to happen it's bound to be I know you're not free but fate can't be too late

Give me time Give me your life I'll give you mine Two lovers entwined

Follow Your Heart

My mind is clear My place is here I'll stand my ground I'll never leave I'm not a puppet on a string

Stand up for yourself Stand up for your life Make your own path Follow your heart

I don't need someone to guide me through my life I don't need someone to see things through my eyes Although the goals I have are out of sight I have to find them myself, this is my own fight

Please leave it alone You are not my clone We have different goals and skills unknown and I would like to discover my own

Stand up for yourself Stand up for your life Make your own path Follow your heart

Hate (single edit)

I've seen this before But not so close to heart So much anger to release The chemicals put it there

Life is not a movie This is fact, not fiction Push the trigger And kill your addiction

How does it feel To be like you How can you hate The way you do

Time heals disputes At least it does for me No anger left to release I've felt it disappear

Crawl out of your misery And defeat your insanity Don't push the trigger 'Cause you are free

Last Chance

Life is hard, for some people it's even a hell The smell of lack of hope every day I pass this way Begging for a way to get its own addiction relieved No minor roof over its head covered with some plastic bags Constitutes its bed

The last chance Look inside you Analyze yourself Review your life Find out went wrong What is causing you this sad song?

Life is hard, for some people it's even a hell To wake up spending the next hours working somewhere Most people get used to this way of life Only a few try to break the chain Break themselves free from this useless way to find them with no fear

The last chance Look inside you Analyze yourself Review your life Find out what went wrong What is causing you this sad song?

Let your sense show you the way Look inside you Review your life Find out what went wrong What is causing you this sad song?

Let your sense show you the way Look inside you

The last chance The last chance The last chance The last chance

Liquid Love

Can't believe my eyes She's so sweet and still so clean Had to make my move I had to get you this once No time to lose

Do you mind if I put my arms around you Would you be pleased if I took you home with me Do you mind if I gave you a kiss and touch you Then we make love until the sun will rise

And we wake up, looking at each other try to remember But the headache reminds me how drunk I was You are not so sweet and not so clean anymore I've got to get out Please can you leave

Do you mind if I put my arms around you Would you be pleased if I took you home with me Do you mind if I gave you a kiss and touch you Then we make love until the sun will rise

Do you mind (Do you mind) Do you mind (Do you mind)

Do you mind if I put my arms around you Would you be pleased if I took you home with me Do you mind if I gave you a kiss and touch you Then we make love until the sun will rise

Do you mind if I put my arms around you Would you be pleased if I took you home with me Do you mind if I gave you a kiss and touch you Then we make love until the sun will rise

Do you mind if I put my arms around you Would you be pleased if I took you home with me Do you mind if I gave you a kiss and touch you Then we make love until the sun will rise

Do you mind

My World

Dim the light, it hurts my eyes It scars my skin and shatter my lies, Fold the blinds, let's stay inside

Take my hand, I'll give you strength Come with me, we'll make our way, Through the light, into the night

Welcome to my world, It's calm and cold Welcome to my soul, It's withered and old

Welcome to my mind, Tread lightly and slow Welcome to my love, Touch it and make it grow

We belong to this, this protected room The world outside is for the ones, That's not afraid to lose

So take my hand, you are invited in Share my darkness and my lust, I'm filled to the brim

Welcome to my world, It's calm and cold Welcome to my soul, It's withered and old

Welcome to my mind, Tread lightly and slow Welcome to my love, Touch it and make it grow

Welcome to my world, It's calm and cold Welcome to my soul, It's withered and old

Welcome to my mind, Tread lightly and slow Welcome to my love, Touch it and make it grow

Nocturnal

I'm getting up, it's oh so cold Come over here and warm my soul You are so hot; I take what you've got And I ask for more, never been so cold before

I can climb the mountains I can sail on the seas But only if you have faith in me

The clock strikes noon, dinner is breakfast I'm feeling alright I hate my life but love is a light When day becomes night I'm feeling all right

Science

Science, eternal life, clones replacing each other on a line Who are you, deceiving nature? Who are you? You're not a god!

An enhanced gene pool, perfection in the bin No need for schools, he who dares wins We have turned biology into technology We have the factory but not the entire recipe

Breeding humans; mutants for special needs A perfect DNA, a killing machine Superior species, developed for special needs A nature in chaos, science or madness we fail to see (the difference)

White coated hubris, creating life No first kiss, you construct your own wife Who are you, eluding nature? Who are you? You're the modern God!

Second Hand

I always see you as my queen I could do everything for you to make you pleased I saw you as the most precious thing I could have I thought you were reflecting the same feelings I do for you But, I was wrong Yeah, I was wrong I was second hand to you all along

I saw you sneak away in a car With the darkest windows but even then I could see it so bright like stars I followed you like the shadow I am And what I saw tore me apart I was your second choice and not your star

And now I can see it there when I held your hand I can feel the dirt you're covered in all along I despise you I don't like you anymore And still I held on to you like your second hand clothes

And now I can see it there when I held your hand I can feel the dirt you're covered in all along I despise you I don't like you anymore And still I held on to you like your second hand clothes

And now I can see it there when I held your hand I can feel the dirt you're covered in all along I despise you I don't like you anymore And still I held on to you like your second hand clothes

Trackers

They're closing in I feel their breath I cannot live without the secrets of my past Their scent is strong my will is weak They read my mind I cannot hide

Kill my sorrow I could die tomorrow If you don't forgive me, my heart is still in me I run through the night and leave neon-trails My fluorescent blood shines through my skin My heart is a beacon they're homing in

From probing tongues or eager lips I brace myself from their fingertips They touch my skin my shield is down My eyes are black my darkness is back

Kill my sorrow my soul isn't borrowed So please forgive me, the trackers have set me free
