Tension

I'm in control in this domain
I feel at home inside the maze
It keeps me safe it keeps me clean
I step aside into the shade

I'm here to watch to read the signs I walk alone I go unseen
From place to place in fading light I move ahead along the tracks

Pre-millennial tension Your premonition Your guillotine

There's something wrong you feel it too I read your mind an open book I sense your fears it's in your bones A grinding stone a crushing load

You dream at night in shallow sleep The demons' breath is in the air It will not pass these are the days So pay attention you are not alone

Leviathan

I watch minutes grow to hours and how seasons builds the ages Every winter dies in sunlight only to be born again And the rainfall feeds the forests while the lightning strikes the trees Turning giants into dust fertile ashes on the ground

I see them going down to the water Where they embrace the silent waves Slowly they're swallowed by the water And their breath ascending to the sky I see them now floating in the water Carried away, carried away

I see wasteland turn into gardens watching oceans giving birth To fragile little creatures born to grow and multiply And the children of the children of the firstborn claims the land Building fences for protection from their brothers greedy grasp

I watch kingdom rise and crumble and the nations come and go Only new names for the same things once the limits has been reached Now I see them lose their interest in the deeds that have been done And the wisdom that's been found, as they return whence they came

2D

I am the big man restless the living past and future A fraction of a second and now is lost forever My mirror image a picture in the static Transcending through the present a fracture in the rhythm

Electric icon culture in twenty frames a second Bright confusion controlling my emotions I keep my mind sedated with useless calculations I see that time is endless and shrink to insect size

I leave the flow of time Free from gravitation I leave the flow of time Free from respiration

In segments days are passing relentless as a legion Yet silent like assassins a poison in my bloodstream Reluctant but impatient I sit and measure minutes So conscious counting fragments my lasting moments vanish

My mode of operation is two-dimension thinking I keep my world from growing ignoring all perspective In perfect isolation I freeze my lust for learning In stillness beauty lingers as rivers in the winter

My senses tuned to nothing a nervous system shutdown In blissful meditation I'm safe from stimulation I don't believe in heaven and science can not help me Retreating from the living I leave the flow of time

Wind of the North

I filtered the wind to sense the colours of the air Projecting the graphs describing past and future The shapes of the living and calamity they bear Clairvoyance became a word far too weak

Cynicism, awareness interlaced into grace A beauty from which my valedictory springs Forgive what seems sinister and crude to face Forgive my conviction to save these skies

The wind of the north seems pleasant and lush Compared to the chill in my eyes at the time The wind of the north obey none but me Calm as the sun while deleting you all

A withering process was programmed and set Annihilation unfortunately inhibited itself In the name of humanity the dissonance spread The heavenly became so ripped and blurred

Dimensional rift that defines our existence Fragile and weak while mankind lasts To trigger the device that corrects and resets Focusing on routes, neglecting the past

Riot

I'm waiting for the plane to crash and burn I like the smell of burning kerosene I'm feeding on the thrill of primal fear I want my share of fluid endorphine

It seems they just sit and wait for sleep I really need to see if there is something more In danger I perceive my world so clear I force myself to stretch the envelope

There's a party going on We'll all be here dancing underground

There's a riot going on We'll all be here dancing underground

I'm freezing to the bone on the arctic storms Naked in the cold I'm feeling so alive I'm searching for the last uncharted land I hope to find someone else like me

Don't listen to the fools that hold you back For you will achieve what they can only dream Now escape the grip of good old common sense And trust yourself for reaching further on

I Am

I am the rhythm and the noise The voices in your blood

The rhythm and the noise The rhythm and the noise The rhythm and the noise I am the voices in your blood

I am the logic and the lust The poison in your breath

Logic and the lust Logic and the lust Logic and the lust I am the poison in your breath

I am the rhythm and the noise The voices in your blood The logic and the lust The poison in your breath

I am the rhythm and the noise The voices in your blood The logic and the lust The poison in your breath

I am the shepherd and the wolf The fire in your chest

The shepherd and the wolf The shepherd and the wolf The shepherd and the wolf I am the fire in your chest

I am the water and the stone The hammer in your hands

The water and the stone
The water and the stone
The water and the stone
I am the hammer in your hands

I am the shepherd and the wolf The fire in your chest The water and the stone The hammer in your hands

I am the shepherd and the wolf The fire in your chest The water and the stone The hammer in your hands

Final Man (version)

Broken buildings watching over flooded streets where nothing moves Shelters for the vultures hardly keeping daylight out Marble stained with rust faded paintings on the walls Beaten towers crumble haunted only by the wind

I will live forever no angels left to hold me I will be the final man

Picking up the given challenge of the fallen gargoyle angels Headed on collision course with martyrs tied as fenders Driving like a mad dog going faster than a bullet Pulled by gravitation from a million tonnes of stone

Human insects lived here crawling through the underground Beehive built in stainless a cathedral for the slaves Spineless cowards guided by ideals they couldn't grasp Giving up their freedom in the hope of being chosen

In the twilight grows the shadows hollow hand that tries to catch me Omens can not stop me because all the prophets died Like the ancient temples their monument survived them Speeding through the ruins I left the bridges burning

Go Film

I find myself inside a church deserted by the priests As shadows shift from grey to red, I notice there's no floor Transparent air suspends my weight as if I had no mass Suddenly the moon comes out from the clouded skies

Wet and cold from shifting daydreams, wakeful in the sleep Windowpane observing some commotion down below Waiting for the noise to come to blur the weary mind Watching as a pastime and I'm the fallen star

Go film - we can all be gods
Go film - we will all be heroes
Go film - we are all immortal
Go film - we will all be safe
Go film - we are all illusions
Go film - and we can never touch

I will shine again with burning light when I return In and out from foreign shores, I've gone astray in time Born to search for something I have never ever seen On an endless quest to hostile ground and unknown lands

Then the scene go back to where it started and I fall As shadows shift from red to grey, I notice there's no floor And gravity awakes me as it throws me to the ground A million tiny grains of dust obscures me from your eyes

Wall of Sound

We are born alone and lonely we remain When we learn to speak we speak to hear a voice As the years go by we learn a thousand words Then we try to talk to curse the silent sky

Like diamonds in the ground We are waiting to be found In silence we are bound By the wailing wall of sound

Want to break the shell and cut the puppet strings With our primal screams that echoes back inside Want to pierce the noise and make our voices heard To the distant shapes that wonders who we are

We must put aside the weapons of our minds Cross the no man's land come with empty hands Overcome the fear to drop the last defence Speak forbidden words reach out beyond ourselves
