#### Like Tears in Rain

Go to Empire State and watch the city lights Hear the noise of millions struggle in the sprawl Stare into the sky, we're few and far between Black eyes full of stars, wide with memories

Every street I ever walked Every home I ever had Is lost

Every flower I ever held Every Spring I ever had Has dried

Every man I ever knew Every woman I ever had Is gone

Everything I ever touched Everything I ever had Has died

Lie down in the park and watch the satellites Hear the children sing just a breath away Dance in heavy air along the interstate Black lung full of fumes choke on memories

Every street I ever walked Every home I ever had Is lost

Every flower I ever held Every spring I ever had Has dried

Every man I ever knew Every woman I ever had Is gone

Everything I ever touched Everything I ever had Has died

## No Man's Land

- I don't want to let you go before I understand
- I don't want to let you go to the no man's land
- I don't want to let you go, I want to hold your hand
- I don't want to let you go to the no man's land

Lyrics

### Afterhours

I have devils on my mind And the hour's getting late There's nothing more to have I'm waiting for the day The weeks are passing by Thinking of the days I want to burn myself again I want to violate you I want to violate you

I want you to hurt me again

I'm never going to waste your time again Burn your love tonight I'm never going to waste your time again We can touch the stars tonight

I have devils in my mind They refuse to set me free My followers in crime But you're the one I fear Hiding from your eyes Thinking of your skin I want to burn myself again I want to violate you I want to violate you I want you to hurt me again

### Helicopter

Twenty years ago I rode By helicopter to the sky I laughed at gravitation For a moment I was free

They say I never landed You know they may be right It looks better from above With some distance in between

To leave is never easy Perhaps it shouldn't be But return is even harder Yes return is harder stil

I often dream of flying Far above the city streets I beat my wings and leave For Cairo or New York

I can go to many places But there's no one there to meet And the sky is a lonely place Just me and the silent clouds

#### Tour de Force

You burn the ground to hold your position You ran away if I came too close You kept track of balance and pressure All the dreams and desires I want some more

Red Black Green for the jackpot

Take you down I want to take you I want to take you down I want to take you down with me

We had the motion we had the grace We had a sense of time and place We wrote the rules, we played the game And it would never be the same It was the beauty while we played We played to win but no one did We grew old we moved ahead From dance hall days for higher stakes

You spun the wheel to keep my attention You danced away if I missed a beat You were queen of present and future I was king and cavalier On our tour de force

#### Unforgiven

I think You are Not my friend

I think You're not On my side

I think I was Far too blind

I think I made A mistake

You try to sneak behind my back But trust can not be stolen Friendship must be earned and affection's not for sale I know you want respect But contempt is all you get from me We are Forever unforgiven

You call me a traitor But you are a snake An eye for an eye And a tooth for a tooth

I think You are In too deep

I think You are not What you seem

I think I have Been a fool

I think I should Take more care

# Humility

Behold the beauty that surrounds us See the wonders we take for granted Roam the world in all her glory Sail the seas and climb the mountains Discover things you never knew Be happy that you're alive

So many reasons to remain So many people to embrace So many stories to be told So many errors to correct

Turn your gaze towards the moon Even further if you dare Turn your face towards the sun And be grateful that it's there

Behold the beauty we have made us All the wonders that we created See the cities of the ancients In the deserts and the jungles See the truth you always knew Be happy that you're alive

So many reasons to remain So many people to embrace So many questions to be asked So many answers to be found

Mister 42

# Dead Stars (version)

We find our songs In fashion magazines We read the story In the morning paper

I touch their hearts And they touch my skin I'm on your screen And you are just so wide

Put us on display For everyone to see We write the words For all to understand

Though I get my kicks It's slowly wasting me Don't try to be an artist I try to be a man

Dead stars still burn Dead stars still burn Dead stars still burn Dead still stars burn

We find ourselves In pictures on the net Blinded by science Addicted to devotion

I'm in your hold Eager to abuse My favourite game I suffer from misuse

I just want to know The man in front of them To read their minds For me to understand

Though I get my kicks It's slowly wasting me Don't try to be an artist I try to be a man

# One World One Sky

One world one sky We live we die Lyrics

## Still Life

The muffled beat of music someone celebrates It's hunting season urbanised I wish I could be there Warmth and laughter the right amount of danger Johnnie Walker wisdom as Cohen used to say

But it's pouring down with rain Do you remember? Are you alive? Do you still speak of deeds undone?

I used to be immortal I was innocent as a child My vision was unlimited I saw rivers on the moon I had important things to say can't remember what they were Of all the things I did none had been done before

But achievements never last Do you recall? Do you dream? Do you still need company?

I had a friend who knew the language of the future I'm told he lost his mind they say he went away Navigating empty streets astray among the lost A shadow in the corner of a stranger's eye

But there's nothing left to learn Do you count the years? Do you breathe? Do you still watch the sunrise?

My ambition took me further than I ever dreamt I don't even need a mirror anymore The penthouse pool is full of ice It should be flowers winter came too soon

But you never liked to swim Do you feel safe? Are you happy? Do you still know my name?

### You Can Make Your Own Music
