# Monochrome

Monochrome reflections  
Climbing up the walls  
Down below your radar  
Things are going on

All along the tunnels  
Through the underground  
We prepare for leaving  
Waiting for the moon

Beats above your highness  
Coded to be safe  
Round and round in circles  
We are coming out

Dance away the meters  
Through the muddy waters  
We are submariners  
Close to foreign shores

Pride in sleepy hollows  
Doesn't make us happy  
We are modern prophets  
Amplified by you

Scientific networks  
Spies behind the curtain  
We defend the future and  
Give it back to you

Break the loop of habit  
Time for your return  
Back among the living  
Welcome and goodbye

Birds in little cages  
All believe in freedom  
We provide solutions  
For a better living

We command the system  
Calling all receivers  
We are noisy people  
For a better living

# Call the Ships to Port

A billion words ago  
The sailors disappeared  
A story for the children  
To rock them back to sleep

A million burning books  
Like torches in our hands  
A fabric of ideals  
To decorate our homes

A thousand generations  
The soil on which we walk  
A mountain of mistakes  
For us to climb for pleasure

A hundred clocks are ticking  
The line becomes a circle  
Spin the wheel of fortune  
Or learn to navigate

A choir full of longing  
Will call our ships to port  
The countless lonely voices  
Like whispers in the dark

A choir full of longing  
Will call our ships to port  
The countless lonely voices  
Like whispers in the dark

A second of reflection can  
Take you to the moon  
The slightest hesitation can  
Bring you down in flames

A single spark of passion  
Can change a man forever  
A moment in a lifetime  
Is all it takes to break him

A fraction of a heartbeat  
Made us what we are  
A brother and a sister  
For better or for worse

A billion words ago  
They sang a song of leaving  
An echo from the chorus  
Will call them back again

A choir full of longing  
Will call our ships to port  
The countless lonely voices  
Like whispers in the dark

A choir full of longing  
Will call our ships to port  
The countless lonely voices

Like whispers in the dark

Tonight we light the fires  
We call our ships to port  
Tonight we walk on water  
And tomorrow we'll be gone

Tonight we light the fires  
We call our ships to port  
Tonight we walk on water  
And tomorrow we'll be gone

Tonight we light the fires  
We call our ships to port  
Tonight we walk on water  
And tomorrow we'll be gone

Tonight  
Tonight

## Bullet

Time is like a bullet from behind  
I run for cover just like you  
Time is like a liquid in my hands  
I swim for dry land just like you

Time is like a blanket on my face  
I try to be here just like you  
Time is just a fiction of our minds  
I will survive and so will you

We are the only ones right now that are celebrating  
And we are joining hands right now  
We are the only ones right now that are suffocating  
We are the dying ones right now

As the water grinds the stone  
We rise and fall  
As our ashes turn to dust  
We shine like stars

As the water grinds the stone  
We rise and fall  
As our ashes turn to dust  
We shine like stars

Kisses on the dancefloor in my past  
I need some comfort just like you  
Beating like a bass drum time goes by  
I want the last dance just like you

Drowning in the flood of morning light  
I'm only human just like you  
Do you hear the city waking up  
I will survive and so will you

We are the ones the only ones  
We are the ones the dying ones  
We are the ones the only ones  
We are the ones and we are joining hands

We are the only ones right now that are celebrating...

As the water grinds the stone  
We rise and fall  
As our ashes turn to dust  
We shine like stars

As the water grinds the stone  
We rise and fall  
As our ashes turn to dust  
We shine like stars

As the water grinds the stone  
We rise and fall  
As our ashes turn to dust  
We shine like stars

## Invisible & Silent

I'm tricked by your smile  
Want to be forgiven  
Waiting for the battle  
Aching for belief

But your answer is wrong  
And my spirit is broken  
Like choirs in the winter  
Singing out of key

I am silent  
Invisible to you  
While I count the days gone by  
I am silent  
Invisible to you  
While I shape the things to come  
I am silent  
Invisible to you  
While I count the days gone by

I try so hard  
To fight for an illusion  
Holding my breath  
Biting my tongue  
I try to cope  
So give me a reason  
I'm waiting for help

I'm trapped by my guilt  
Want to be forgotten  
Tired of the noise  
Aching for relief

But your anger is gone  
And my silence is golden  
Like fires on the water  
Drifting out of reach

I am silent  
Invisible to you  
While I count the days gone by  
I am silent  
Invisible to you  
While I shape the things to come  
I am silent  
Invisible to you  
While I count the days gone by

I am silent  
Invisible to you  
While I count the days gone by  
I am silent  
Invisible to you  
While I shape the things to come  
I am silent  
Invisible to you  
While I count the days gone by

# Prometheus

This is the sound of our days  
Burning the light of our nights  
This is the sign of our times  
From my mouth into your eyes

This is the beat of our praise  
Setting the pace of our stride  
This is the line that we cross  
With my torch I light your way

When the time is right  
We raise our heads and look  
When the bridges burn  
We leave our homes in flames

This is the noise of our blood  
Telling the age of our nerves  
This is the price of our lies  
From my lips into your breath

This is the voice of our past  
Turning the tide of our lives  
These are the tears that we cry  
With my tongue I touch your mind

When the time is right  
We raise our heads and look  
When the bridges burn  
We leave our homes in flames

When the time is right  
We raise our heads and look  
When the bridges burn  
We leave our homes in flames

## We Stand Alone

Stand before the gates and watch metropolis  
Empires come and go we live forever  
And eternity is in your hidden eyes  
Take my broken wings teach me to fly again

I stand alone  
We stand alone  
I stand alone  
We stand alone

Down the empty streets head for the seven hills  
Vestal virgins dance we steal the fire  
Battered columns stand as silent monuments  
Deep inside their dreams I see your memories

I stand alone  
We stand alone  
I stand alone  
We stand alone  
I stand alone  
We stand alone

We share the last champagne and watch necropolis  
Still and so let's leave her to her silent walks  
The sun of Rome is set and our day is gone  
A kiss a taste of red from your open lips

I stand alone  
We stand alone  
I stand alone  
We stand alone  
I stand alone  
We stand alone  
I stand alone  
We stand alone

## Rising Sun

My eyes grow darker  
Can barely see your face  
Yesterday I tried to belong  
You know I won't stay that long

In a time of lust and liars  
I learned to trust my own desires  
Touch me don't be ashamed  
I just don't know how to play that game

In pride and grace we rise with the sun  
With the morning light  
We just run and run  
The good old days that imaginary place  
With the rising sun  
We forget and we embrace

My eyes grow darker  
Guide me now  
Can barely see your face  
Just lead the way

My eyes grow darker  
Guide me now  
Can barely see your face  
Just lead the way

My days grow longer  
Can barely find my trace  
One more day I try to be strong  
You know I won't last that long

For a time I feed the fires  
I search and seek while time expires  
Hold me I'm so afraid  
I just don't know how to keep this flame

In pride and grace we rise with the sun  
With the morning light  
We just run and run  
The good old days that imaginary place  
With the rising sun  
We forget and we embrace

My eyes grow darker  
Guide me now  
Can barely see your face  
Just lead the way

My eyes grow darker  
Guide me now  
Can barely see your face  
Just lead the way

My eyes grow darker  
Guide me now  
Can barely see your face  
Just lead the way

My eyes grow darker  
Guide me now  
Can barely see your face  
Just lead the way

# Winter Comes

So the winter comes  
Where we belong  
I feel the cold  
Within my heart  
I see the night  
Deep in your eyes  
The winter comes at last

Here the winter comes  
Again  
Here the winter comes  
Again  
Here the winter comes  
Again  
Here the winter comes  
Again

So the winter comes  
Where we grow strong  
I hear your words  
Melt like snow (on my skin)  
I taste your kiss  
It tastes like snow  
The winter comes to last

My tongue is frozen to the ground  
I cry alone for times to come  
It beats the daylight out of me  
The winter comes to seize the day  
The winter comes to seize the day

Here the winter comes  
Again  
Here the winter comes  
Again  
Here the winter comes  
Again  
Here the winter comes  
Again

Again  
Again

# Atlas

I'm a thousand people  
From day to day  
We are all air born  
Without ground control  
I call my name in the maelstrom

I'm not giving in  
So don't you give in  
I'll be your Atlas  
And carry our world

But I guess  
I won't save the world today  
I'm just trying to survive  
And perhaps I'll dream again  
But I will find my cross  
And I will take us home  
But I guess  
I won't save the world today

I'm a thousand people  
From day to day  
Blues and so untitled  
On the road to where  
I'm losing my name in the maelstrom

But I'm not giving in  
So don't you give in  
I'll be your Atlas  
And carry us home  
But I guess  
I won't save your world today

But I guess  
I won't save the world today  
I'm just trying to survive  
And perhaps I'll dream again  
But I will find my cross  
And I will take us home

But I guess  
I won't save the world today  
I'm just trying to survive  
And perhaps I'll dream again  
But I will find my cross  
And I will take us home

But I guess  
I won't save the world today
