# Leaving Babylon

We're leaving Babylon

Maybe we will conform

But not for now

Let the horns salute our mission

Destination Eschaton

I'm leaving Babylon

## Prime Movers

Their iron fists are beating  
Picking up the steam  
Hammers in the mineshaft  
Pictures how it seems  
Numbers in the working  
Burning down the house  
Clockworks in the right mind  
Whispering of Faust

Prime movers  
Here and now forever  
We are the prime movers  
Eternal for a moment  
We are the prime movers  
Prime movers  
Godlike all together  
Prime we are prime  
We are the prime movers  
Move and we move

Prodigies are screaming  
Going down the road  
Grails of their birthright  
Legion we are code  
Far between and standing  
Picking up the quest  
Weapons of mankind  
We are never going to rest

## For Our Time

I've been searching, I've been living  
For tomorrows all my life  
I've been watching, I've been waiting  
In the shadows for my time

For my time

# Thy Kingdom Come

We melt down  
Worlds collide  
We are forming a sun  
Love under will  
Follow your shadow  
Until kingdom come

We break down  
Falling in time  
Through the fabric of light  
Stand your ground  
Carry our heavens  
Into the dead of the night

Come heaven, come shadows  
Come crashing over me  
I feel that something has to break  
Come mother, come Caesar  
Come and tend to me  
I feel that something will have to break  
And it's gonna be me

The time has come  
Breaking apart  
We are holding our breath  
Our black sun  
A walk in the shadow  
Of the valley of death

Dancing to silver apples  
And the eyes are closed  
Reaching for the oscillator  
I tune to you  
Heathen and darken  
Lost in the cities  
Crumble of power  
I stand and turn to you

Come heaven, come shadows  
Come mother, come Caesar  
Come day, come fall  
Come and deliver me

## I Walk Slow

I walk slow  
And I want to waste time  
I think twice  
Far behind that crowd  
I need more  
And I won't wait  
I might die  
For no reason at all

Right here, just now I spoke words only meant for you

## Ignorance & Bliss

And I extend and open hand  
Over the horizon  
Waiting for the sun  
To fall into my palm  
And hide inside my fist  
In a foreign land  
Watching the sea  
Reaching for the sun  
Rising like a lover  
For the promised kiss

I'm longing for all the things I will never get  
I'm longing for all the things I had and lost  
I'm longing for innocence and simple dreams  
I'm longing for ignorance and bliss

## Last Dance

This is my white shadow  
A shadow of myself  
This is the last shadow  
There's no one left to blame  
You are my black widow  
A widow in the rain  
You are my eternal widow  
And keeping me insane

This is my bright shadow  
A shadow of my face  
This is the single shadow  
There's nothing left to drain  
You are my dark widow  
A widow in the net  
You are my final widow  
And I had myself to blame

My heart is blackened  
I am dying in your arms  
Let this not be  
The last dance  
The floor collapses as we dance  
We are falling apart  
This is the world on fire.  
This is the end of it all

This is the world on fire  
This is where we start to fall

I pray for rain

## Auto (Circulation)

Desperation

Circulation

I need stimulation

Right here, right now

Generation

Propagation

I suffocate

Right here

Right now

And it feels good

I leave the flow of time

## Not to Be Here

If I thought that you could stand I wouldn't hold you like I do  
If I thought that I could live my life with someone else than you  
As you turned your head to listen to what I could never say  
In a moment of regret I almost gave it all the way

That I need you to love myself  
That I need you to be strong  
I'll do anything to make this disappear  
I'll do anything not to be here

If I thought that I could stay I wouldn't leave you like I do  
If I thought that in million days just one we'd make it through  
And every morning as you whisper I must never let you go  
I would give away my live if only I could let you know

## Leaving Babylon II
