## God Is Blind

You can't run away  
From the lord's eternal game  
Eat the dust  
And kiss the book  
Taste the wine of brotherhood

I don't want to hear the story  
Of someone who lost his glory  
Can you feel it too  
Can you feel it too

I released myself from your grip  
On my life  
You lost all of your infallibility  
Now, we're standing here  
The more we have the less we give  
Foul discord  
Is what he sent  
God is blind in the end

## We Fly... Tonight

I teach you a lesson  
I know something beautiful  
Let me gratify your passion  
I call this fashion

You'll enjoy the labour  
There is no need to regret  
Will you grant the ultimate favour?  
There is no failure...

We fly... unto the end of time... Tonight...  
We try to get high one more time... Tonight...  
We fly... unto the end of time... Tonight...  
Don't cry... this love won't be denied... Tonight...  
Tonight!

Overcome resistance  
There is something beautiful  
We can summon into existence  
We kill the distance...

Something you cannot measure  
Can we ever get enough?  
No we never pall with pleasure  
We hold a treasure...

We fly... until the end of time... Tonight...  
We try to get high one more time... Tonight...  
We fly... until the end of time... Tonight...  
Don't cry... the stuff won't be denied... Tonight...  
Tonight!

## We Might Be One for a Day

I may well be satisfied  
Stay a while  
Sweet little child  
Taste some of the poisoned fume  
Leave this world  
Enrich this room

We might be one for a day  
Angels take  
Our souls away  
Reaching heights, we won't get caught  
Gods lend wings  
To tainted hearts

Feel the pain deep inside  
From your head to your feet  
From the left to the right  
But no one loves

When we earn all lover's pay  
Father, hide  
My love away  
Searching for an alibi  
Listen to  
Your spirit's eye

Feel the pain deep inside  
From your head to your feet  
From the left to the right  
But no one loves and no one knows

# Strange Affection

Give me your bright white eyes  
That I might see  
The blindness of a narrow-minded flea  
We cannot bridge the distance  
Don't get too close to me

How deep must you fall down  
To understand  
That selfishness is always  
built on sand  
Waiting for the impact  
You got nothing to defend

I'm happy with you, happy with you  
night and day  
I'm feeling with you, bleeding with you  
Anyway  
I can see no reaction  
It's a strange affection

I'm serving you, I'm serving you  
As a prey  
I'm leaving you, deceiving you  
Not today  
I can feel no reaction  
What a strange affection

I'm trapped within a maze  
Of lies and fake  
Don't have the strength to speak,  
to fight or hate  
I hang in doubt, my head is cramped  
Why did we seek the end

I'm happy with you, happy with you  
night and day  
I'm feeling with you, bleeding with you  
Anyway  
I can see no reaction  
It's a strange affection

I'm serving you, I'm serving you  
As a prey  
I'm leaving you, deceiving you  
Today  
I can feel no reaction  
What a strange affection

## Deliver Me

Listen to the night  
Take delight in this tune  
A symphony of cries  
Howling at the moon

Illuminate the wide  
Hugeness of my heart  
The corridor inside  
I surely have to walk

Deliver me tonight  
And please don't ever let me go  
Heaven has arrived  
But don't let anybody know  
You're water to my seeds  
I think I felt something alive  
Answer to my needs  
And heaven knows it will be right

# Hear Me Calling

Can't you hear me calling?

Can't you hear me calling?  
Can't you see I'm falling?

I believe in your heart  
Can you believe in me?  
Would you try me out one day  
When Our souls are free?

I can taste your sweetness  
I am out of control  
Leave my mind if you don't stay  
You decompose my soul...

Can't you hear me calling  
Longing for a calm  
Can't you see I'm falling  
Soon I'll come to harm

can't you feel my yearning  
For your charity  
Can't you see I'm burning  
Till our souls are free

Waiting for an answer  
I'm waiting for a sign  
I do not understand these feelings  
Hope you're feeling fine

Can't you hear me calling...

Hear me calling...

## Back in My Life

Back in my life  
I used to be so happy  
Don't ask me why  
I became so ugly  
Go back in time  
And try to find the answer  
But don't hope to find  
What is now out of time  
All I see is a stranger who died

Out of the blue  
You break into the silence  
And all that we need me and you  
Is spiritual guidance  
Now I can see  
Our love was always dying  
And today I regret  
All the joy that we had  
All I feel is emptiness instead

I used to be so happy  
I used to be so happy  
I used to be so happy  
Now it's gone, so long

Turn of the tide  
I feel it coming back to me  
Made up my mind  
You will never be close to me  
Back in my life  
I used to be so happy  
Now I'm breaking the back  
Of what is breaking my neck  
All I want is tenderness instead

## Slaves to Passion

Will you ever find the answer?  
Will you never touch the ground?  
You do gladly feed your Cancer  
Do you hope to drag me down?

Hear my Words, feel my Hurt  
Can't you see we're meant to be  
Slaves to Passion; Servants to Fashion  
That's the way that we want to be

Hear my Words, feel my Hurt  
Can't you see we're meant to be  
Slaves to Passion; Sense the Fashion  
That's the way that we want to be

If I ever need a brother  
I know I'll find a brother in me  
Do you sometimes need a sister?  
Something you will never be...

Hear my Word, feel my Hurt  
Can't you see we're meant to be  
Slaves to Passion; Sense the Fashion  
That's the way that we want to be

# Drifter

Loneliness calls you  
Push the teenage dreams aside  
Tonight  
Open the door to  
Chase away the demon from your mind  
Reality bores you  
Go on clinging to this fool's  
Paradise  
Feelings don't reach you  
Worn out like the girl that drowns  
In lies

I cannot believe you  
All the words you say  
(Me) myself won't be the same  
I won't play the clown for you  
Every single day  
(Me) myself won't be the same

Someone adores you  
Little girl don't hide before  
His eye  
You're drifting out to  
Find a place beyond the rain  
And cry

# Heart of Stone

I never thought I find my way  
Out of yesterday  
Time really passed me by  
But now I need to concentrate  
On the steps I take  
I try, I fail, I try...  
Now I'm searching in my memory, in my memory  
For the man I used to be  
I'm searching in my memory, in my memory  
For the man I want to see

A heart of stone  
Unhappy soul  
Believe me, it doesn't hurt  
My god he said  
Don't be afraid  
Don't you cry  
cause it won't be heard

I hope I'll ever find my way  
Out of nowadays  
My time is standing still  
I guess I only celebrate  
Every move I make  
We're aching for the thrill

Now I'm searching in my memory, in my memory  
For the boy I used to be  
I'm searching in my memory, in my memory  
For the boy I feel in me

## New Drug

I lost my sight when I got stun  
I never bled so  
Do I slide into vice  
Till I'm gone?

You're like a dive into the wild  
Like poems  
holding me as gentle  
as a new born child at night

Then sorrow breaks  
The silent spell  
My mind is clearing up  
And takes me back  
Into my shell  
Back to hell

I hope you  
Won't see me through  
Like I do  
I can't get  
You out of my mind  
I see still I'm blind  
I hope you  
Won't see me through  
Like I do  
I can't get  
Me out of this hug  
Just be my new drug
