# Re-Invent Yourself

Back in my room again  
A smell of cheap perfume  
Trapped in myself again  
Prepared to meet my doom

Permanent reflection  
A need for mental food  
Afraid of my actions  
Here in this solitude

So predictable  
And conventional  
Just re-invent yourself  
Nothing fictional  
It's only natural  
So re-invent yourself

Mental infection  
The answer lies in you  
Far from perfection  
There's so much work to do  
Broaden my perception  
Can't see the wood for the trees  
Things lose their attraction  
I hate this lazy me

So predictable  
And conventional  
Just re-invent yourself  
Nothing fictional  
It's only natural  
So re-invent yourself

So predictable...  
So conventional

## Ride on a Star

You reach out your hands  
To the mere pretence  
You dream to be a part  
Of this perfect world  
Wear your tempting grin  
You'd do anything  
Whatever it takes  
To be his favourite girl

Now you feel so real  
You take a ride on a star tonight  
Now you feel so real  
You burn so bright  
For your star tonight  
Now you feel so real  
You take a ride on a star tonight  
Now you feel so real  
Your dreams will die  
For your star tonight

The fake world you adore  
What did you take it for  
You were just a pleasant change  
In this unreal world  
Never belong to him  
You didn't mean anything  
You were just another  
Willing and stupid girl

Now you feel so real  
You take a ride on a star tonight  
Now you feel so real  
You burn so bright  
For your star tonight  
Now you feel so real  
You take a ride on a star tonight  
Now you feel so real  
Your dreams will die  
For your star tonight

Now you feel so real...

# Self-Deception

I'm unclean  
Undress me  
So unreal  
The frame I see  
I stand stripped to the waist  
Before myself  
Is it really me  
Or what I'm trying to be

I won't drown  
In my tears  
And go down  
In my fears  
I am stripped to the skin  
I feel ashamed  
Is it really me  
What I pretend to be

This life is just an illusion  
A dream that never ends  
I'm always trapped in confusion  
On lies it all depends  
If this is just an illusion  
Made up in somebody's mind  
I have to draw the conclusion  
It must be someone unkind

I won't lose  
My trust again  
So untrue  
It's still the same  
So I strip off my skin  
To ease the pain  
Is it really me  
What I believe to see

# Foreigner

Coming from the stars  
Into that space  
No healing  
When a lonely heart's displaced  
Left behind  
In a foreign land  
So should he dare  
To reach out his small hand

He's a foreigner  
He will never be same  
A foreigner  
Wants to be from where he came

Coming from the stars  
Into that world  
So far away  
From what he calls his home  
A begging to be free  
To let him go  
A groaning scream  
Surrounding any soul

He's a foreigner  
He will never be same  
A foreigner  
Wants to be from where he came

He's a foreigner...

# Anywhere

When I'm lonely  
Deep inside  
A defending hand  
Takes me to a friend  
When I'm falling  
Asleep to dream  
Of a naked dawn  
Something keeps me warm

I feel better now  
That you are so close to me  
You make me high  
Anywhere  
I can taste the joy  
When I feel so close to you  
You make me high  
Anywhere

When I'm leaving  
That safe place  
Someone knows my way  
In the deepest grey  
And when I'm missing  
Your safe home  
I know I'm secure  
Everything's so pure

I feel better now  
That you are so close to me  
You make me high  
Anywhere  
I can taste the joy  
When I feel so close to you  
You make me high  
Anywhere

## Blue Moon (Void-Style-version)

Stories of the past  
Make my heart ache  
The shining of the stars  
Will make the earth quake  
Gone too far  
The angels start to sing  
DAS ENDE IST NAH  
And pain is what it brings

I found heaven, I found joy  
And peace within my mind  
In the sand, in the grass  
In the hill of the land called  
Blue Moon

I heard it in a dream  
Don't sell your soul  
Now there's a need to scream  
A need to change my role  
'Cause stories of the past  
Make my heart ache  
Time goes too fast  
For my sake

I found heaven, I found joy  
And peace within my mind  
In the sand, in the grass  
In the hill of the land called  
Blue Moon

# Freedom

I need an overdose of life  
My secret to survive  
To get a big kick out of live  
I always go against the tide  
I burn so fast but bright  
And never see the red light

Don't keep your eyes on every step I take  
Don't restrict me in every move I make  
I wanna be free  
Just take your hands off me  
I gotta be free  
No-one else can live my life for me

Despite of any consequence  
Whatever makes no sense  
I hold the whole world in my hands  
And when I feel I'm out of sight  
The chemical delights  
Will lead me safely through the night

Don't tell me what I'm supposed to do  
I am the only one who pulls me through  
I wanna be free  
Why don't you let me be  
I gotta be free  
Oh, why can't you just see  
I wanna be free  
Just take your hands off me  
I gotta be free  
No-one else can live my life for me

Don't steal the air from every breath I take  
I don't give a shit for all the rules I break  
I wanna be free  
Why don't you let me be  
I gotta be free  
Oh, why can't you just see  
I wanna be free  
Just take your hands off me  
I gotta be free  
No-one else can live my life for me

# A Prayer

Once I had a dream before I woke up  
When I try to walk I fall asleep  
Don't know where I'm going to,  
I don't even know where I have been  
But still I try to realize the truth  
That I have seen

So I pray  
Please, help me, please  
Please, help me, please  
Please, help me, please  
Please, help me, please

Reveal the precious spell of every moment  
Inhale the flow of life in every second  
Rely upon the spirit that you hide  
Behind a lie  
I will keep on trying till the day  
That I die

And I pray  
Please, help me, please  
Please, help me, please  
Please, help me, please  
Please, help me, please

Take my fear away  
Don't lead me astray  
Take my fear away  
Don't lead me astray

Please, help me, please  
Please, help me, please  
Please, help me, please  
Please, help me, please

Help me to stay on this road and  
Don't lead me astray

# Hope Won't Die

No matter what you say,  
You know you're guilty  
Nothing could excuse this circumstance  
You can clean your hands  
But your mind stays filthy  
You always trip on your own demands  
And hope won't die  
Just go on and pray the saint  
And hope won't die  
But no-one else can hear your plaint  
Now you want to fall into oblivion  
Will that make it easier for you  
First of all you need to be forgiving  
'Cause the one who suffers most is you  
You want to live without restraint  
You want to live without restraint  
You want to live without restraint  
You want to live without restraint  
No matter what you say  
You know you're guilty  
You can clean your hands  
But your mind stays filthy  
Nothing could excuse this circumstance  
You always trip on your own demands  
And hope won't die  
Just go on and pray the saint  
And hope won't die  
But no-one else can hear your plaint  
You want to live without restraint...

# Give in

Give in  
Go on and live in sin  
Give in  
Your ugly face always seems to win  
Give in  
That feeling goes under your skin  
It calls you from deep within  
I'm staring out of empty eyes

Give in  
And let some reason in  
Give in  
The time have come for a new begin  
Give in  
The fever burns under your skin  
It haunts you deep within  
Don't listen to your empty lies

Give in  
Go on and live in sin  
Give in  
Your ugly face always seems to win  
Give in  
That feeling goes under your skin  
It calls you from deep within  
I'm staring out of empty eyes

# Remember

Don't give in  
And blow out everything  
That once was you  
That you'll be  
You always were so free  
Free as a bird  
In a cage  
Longing for the final stage  
And so I sing  
For you  
'Cause it breaks my heart in two

Always remember  
That you will find  
A reason to live your life  
Always remember  
That deep inside  
Your true will is still alive  
Always remember...

No, don't give in  
And let your heartache win  
These days were meant  
To decline  
Your dreams were never mine  
And still you're more  
To me  
Than a fading memory  
That's why I sing  
For you  
There's nothing else for me to do

Always remember  
That you will find  
A reason to live your life  
Always remember  
That deep inside  
Your true will is still alive  
Always remember...
