Achievements

Various attempts
Anchored in your past
Have left notable marks
Causing strings to resonate

So you're allowed to step
Into the magic circle
You're rightly qualified
They build on your
Achievements

Irons for the fire
Put them on your list
The unlimited cloud
Has a space for everything

As they gather dust
Empty bullet points
Become the silence that you keep
The source for new
Achievements

And if it starts to rain you'll be the one
To sabotage the building of the ark
If it starts to rain you'll be the one
To sabotage the building of the ark
It's the results that count
Line up line up line up to make your move
Receive your healing
And if it starts to rain you'll be the one
To sabotage the building of the ark

Let the drowning start
No one knows how it will end
All dreams and doubts collide
Crumble in your empty hands

Little portions of a love
That could have changed the game
But you won't jeopardize
The masterpiece of your
Achievements

Isolated

I am their favourite rat
Day after day I am getting
Caught in the same live trap
Caught in the same live trap

I am their favourite ghost
Haunting these clinical spaces
Guarding the boundaries
Guarding the boundaries

I'm their favourite bad example
Selling comfort to the sentimental
Anxious world here I come
Following scripts not yet created
Leave me isolated

I am their speaker of lies
Echoes pretend to be answers
Riding the horse till it
Riding the horse till it drops

Up on their favourite cloud
As if there was a tomorrow
Still I'm delivering
Still I'm delivering

It's the best I can come up with
Better than nothing

Go away they say
Go away, go away
You bring misfortune
You know how it is
When the scam blows up
Someone else will have to take
The blame

No Complications

Neutralized
Set in concrete
Hollowed out
Tenaciously the memories linger on
Inerasable
Unimpressed
Eager to draw outlines that will last
They know all details
By heart
You're slow as hell
The flashbacks crop up fast

No complications
What do they know?
We got it all worked out
I hide where you don't seek
I hide where you don't seek

No complications
What do they know?
We got it all worked out
I hide where you don't seek
I hide where you don't seek

Lulled to death
Bustling boredom
Day by day
You force the pictures not to lose their blur
To stay harmless
To stay vague
Forever wash your hands in innocence

No complications
What do they know?
We got it all worked out
I hide where you don't seek
I hide where you don't seek

No complications
What do they know?
We got it all worked out
I hide where you don't seek
I hide where you don't seek

No complications
What do they know?
We got it all worked out
I hide where you don't seek
I hide where you don't seek

Million Dollar Smile

Well done, well done, you have brung stability
All sorted out, everything that troubled me
Cheat mode engaged, things could not be easier

Smile
Your million dollar smile
A substitute
A substitute for light
Smile
Your million dollar smile
A substitute
A substitute for light

Reflecting, reflecting
From all sides

That's all I need, to align my inner eye
Focus locked in, nothing left to simplify

Ruling My World

When our twisted paths cross
When I run into your arms
When our move is adequate
And no gesture fits the context
Your arrogance gives me support
Caring words have been used up
Injuries are hidden well
Down in the archives, down in the archives

In another universe
We will make the magic work
This right here has let us down
Inattentive, inconsistent
Your arrogance gives me support
Caring words have been used up
Injuries are hidden well
Down in the archives, down in the archives

Don't you know you're still ruling my world?
Even if you're disconnected
No escape, no energy is lost
No escape, no energy
Don't you know you're still ruling my world?
Even if you're disconnected
No escape, no energy is lost
No escape, no energy

Loyalty is everything
Simple rules and strategies
Stick to their requirements
Stop desires from invading
Your arrogance gives me support
Caring words have been used up
Injuries are hidden well
Down in the archives, down in the archives
Wrong maneuvers to get right
Run the countdown in reverse
I know there is light outside
But there's no end to this tunnel

Don't you know you're still ruling my world?
Even if you're disconnected
No escape, no energy is lost
No escape, no energy
Don't you know you're still ruling my world?
Even if you're disconnected
No escape, no energy is lost
No escape, no energy

The background radiation cannot be cancelled
Cannot forgive and let go
The background radiation cannot be cancelled
Cannot forgive and let go

Don't you know you're still ruling my world?
Even if you're disconnected
No escape, no energy is lost
No escape, no energy
Don't you know you're still ruling my world?
Even if you're disconnected
No escape, no energy is lost
No escape, no energy

More Gold

Keep on staring at the revolving door
We might reappear when the time is right
Wisely slowing down the eternal spin
Making you forget how your hands are tied

Don't despair, we are here
Providing more gold to expand your cage
Don't despair, we are here
Providing more gold to expand your cage

To expand, to expand, to expand your cage
To expand, to expand, to expand your cage

Build on our plans for the years to come
Pleasure, flowering lands, noble points of view
Shiny polished walls, spaces in between
Watch us come and go like we always do

Don't despair, we are here
Providing more gold to expand your cage
Don't despair, we are here
Providing more gold to expand your cage

To expand, to expand, to expand your cage
To expand, to expand, to expand your cage

Don't despair, we are here
Providing more gold to expand your cage
Don't despair, we are here
Providing more gold to expand your cage

To expand, to expand, to expand your cage
To expand, to expand, to expand your cage

On a Journey

No more spying around
No more counting on a coincidence
No more remnants of light
No more keeping a dying sun from dying

Chaos resolved
No needless parts
The house will hold
Without the cards

We're on a journey
We'll be arriving soon

No more zeroes and ones
No more typing letters into thin air
No more shying away
No more cold looks ever so petrifying

Chaos resolved
No needless parts
The house will hold
Without the cards

We're on a journey
We'll be arriving soon

The way you trap me you send my mind free

The Same Ghost

Find your random route in the black tide
Spin with pixeled eyes, heartbeat out of tune
No need to think twice in this speedrun
Time begins to melt, now there's nothing else

Follow your followers
(Follow us!)
Our lines are written by the same ghost
(Catch up!)
Follow your followers
(Follow us!)
All the wonders blow up right in front of us

Mirrors only show further mirrors
Rooms without a name, they all look the same
This folder we're in is being archived
Coded to unwind a discarded dream

Our lines are written by the same ghost

Losing Your Coordinates

Your fears are unfounded
Inept and outdated
Out there behind armored glass
Your eyes are weapons
Your fierce protection

Absurd wishes counted
As approved compensation
A pact that transcends it all
Clear conditions
Stoic affection

I have no trigger to stop
There is no way this could end
The gap was made unbridgeable
I'm losing your coordinates

I've been too high on this drug
There's no more ground to defend
Beyond the gate I'll never pass
I know you're there, I know you're there

No big deal / a living hell

Entirely surrounded
By ultimate distance
Notes that were never sent
Dust from relics
Of a lighthouse

Absurd wishes counted
As approved compensation
A pact that transcends it all
Clear conditions
No reaction

I have no trigger to stop
There is no way this could end
The gap was made unbridgeable
I'm losing your coordinates

I've been too high on this drug
There's no more ground to defend
Beyond the gate I'll never pass
I know you're there, I know you're there

A living hell

Beyond the gate I'll never pass
I know you're there, I know you're there

No big deal / a living hell

Weird Physics

Virtual sparks
Unnoticeable
Blink in and blink out
The surface remains
Without a scratch

Parts of a structure
Get rid of their form
Submit to the blankness
As if it were whole
From edge to edge

Shadows engage in
Motionless dance
The deadlock itself
Has switched to standby
Eternally

The fire keeps smoldering
Unwilling to reignite
I'm turning to dust right by your side
I'm turning to dust right by your side

Virtual sparks
Unnoticeable
Blink in and blink out
The surface remains
Without a scratch

So this is the backup
You're leaving me with
A wasteland lit up by
A spectrum of light
Unknown to me

The fire keeps smoldering
Unwilling to reignite
I'm turning to dust right by your side
I'm turning to dust right by your side
Weird physics within absurd confines
Weird physics within absurd confines
The fire keeps smoldering
