# Give Back the Moments

Finally  
Things turned out the way you've planned them  
Once again  
Ignored the signs and felt the flames  
I hated you  
For all the feelings that you've offered  
So untrue - is what you are  
So give me back the moments

I needed you  
Looks of love had turned away  
I need you, too  
Will you still be waiting for me  
I'm sorry, too  
That I have to leave your heart  
Alone - is what I feel  
So give me back the moments

What's the price of love  
Mourning - mourning  
Who's gonna heal the hearts  
Yourself - yourself  
Give me back my life  
No way - no way  
Give me back the moments  
Too late - too late

# A Thorn Inside My Head

What is it I'm looking for  
In this foreign matrix  
It keeps my eye fixed

Traced me down into its core  
How selfishly the time ticks  
Counting down quick

Trust me - I have so much love to give  
Thrill me - the fear of disaster sleeps in these hands  
Maybe - we'll cause destruction on our way  
Feel me - a night to forget the fate that we share  
Kill me - and place a thorn inside my head

Caught between the barricades  
A heart-breaking correction  
Without deception

Open-minded to the bone  
In stimulating action  
My last reflection

# Follow the Demons

Drop me a line  
Say that you're mine  
And wait for me  
Down in the valley

Once and for all  
I will recall  
The pleasure you bring  
All over my body

So long ago  
You wanted to know  
And secrets were spilled  
Into the barley

Now that you're here  
Why should I care  
And follow the demons  
Back to the alley

A heart without soul  
A mind full of gold  
A sin to ignore  
That every day is lost without you  
A world of your own  
A time so alone  
A place far away  
I'm lost without you every day

Burned in my skin  
Incomparable sin  
Confession will drive me  
Into perdition

Rest for a while  
Trust me and I  
Will show you the demons  
Back in the alley

# Belles

You are on my mind  
While I'm out of it already  
Care for me  
And take me to the seaside

I never saw a beauty  
Like you, shadow in despair  
Comfort my desire  
Pressurized beyond repair

Hold me spell-bound  
In your dungeon I enbloom  
Call me in your garden  
Feed me fruits of distant doom

I changed my clothes to please you  
I changed my mind to black  
And now I will surrender to you

I changed my words to please you  
I changed my heart to black  
And now I will surrender to you

Patience-seeking  
Waiting for her flesh to burn  
Tangled in emotions  
Paralyzed and left to yearn

Fragile-longing  
For her breath to calm my sea

Leave me twisted  
Leave me ship-wrecked endlessly

# Winterwalk

The night - there is no one around  
The wind - is blowing through my hair  
My senses - I feel your presence  
Your voice - seems so far away

The trees - move gently with the wind  
The snow - innocent and peaceful  
My heart - warm and calm  
Your touch - soothing and longed for

The sea - standing at the shore  
The gulls - gazing at this beauty  
My breath - exhale all my worries  
Your life - becomes my life

The streets - wet from the rain, unpleasant  
The moon - so much brighter than the sun  
My light - will glow while you're near  
Your eyes - the pool of my dreams

Right into your arms  
I want to fall with no one,  
With no one else, but you  
Right into your arms  
I want to fall for no one,  
For no one else, but you

The truth - is sometimes hard to accept  
Deception - almost unbearable  
My words - a promise forever?  
Your lies - will remain unheard

The hurt - one in a million  
Failure - one in a million  
My strength - boundless as you  
Your lies - will remain unheard

The crime - undo what has been done  
Tolerance - the only weapon I can offer  
My mutiny - will save a sinking ship  
Your mercy - I can count on

The new - whatever comes tomorrow?  
Silence  
My salvation - I will find in you  
Your mercy - I can count on

# Separation

We used to say the world is in our hands  
Another crazy vision of romance  
The picture of our love will fall apart  
If you leave me now

You said you couldn't stay with me tonight  
Instead you turned to run and walked away  
Take everything I have that promises me that you stay

If you want to leave me now  
Just go and break my heart  
What will I do without your love  
I don't want to let you go before it would break my heart  
What will I do without your love

Just as my thoughts of love that passed you by  
You told me you need time on your own  
Don't let it be the end of what we share  
And come back to me

All good things in life are doom to end  
But I just seem to fail to comprehend  
Maybe we can break the rule once more  
And forever

If you want to leave me now  
Just go and break my heart  
What will I do without your love  
I don't want to let you go before it would break my heart  
What will I do without your love

# Back to Life

Where have you been lately  
I haven't heard from you in a long time  
Your voice sounds the same  
But what are these marks on your face

Drink up your glass of wine  
Let's go for a ride  
Into the city  
With its shimmering lights  
For beyond your life awaits

Distorted views of reality  
Has kept you awake all night  
Drown your face in her chest  
Until the morning breaks

This your life, your love  
Embrace what you have don't stop  
One day breaks your mind, your heard  
Now it's the time: restart  
This is what it feels like...  
Coming back to life  
This is what it feels like...  
Coming back to life

This your life, your love  
Embrace what you have don't stop  
One day breaks your mind, your heard  
Now it's the time: restart  
This is what it feels like...  
Coming back to life  
This is what it feels like...  
Coming back to life

This your life, your love  
Embrace what you have don't stop  
A new day awakes your heard  
This is the time to start  
This is what it feels like...  
Coming back to life  
This is what it feels like...

# All the Words (Catharsis)

I came to count the failures  
My life is in a mess  
Call me mad and selfish  
I am ready to confess

I tried to avoid it  
But I cannot feel a thing  
Tell me what to do now  
(Tell me) what you feel within

Your words and lies  
Done me wrong again  
Look in these eyes  
Too blind to see a friend  
Where are you now  
Where are you now that I need you most  
Look in these eyes  
All will be fading soon

Way to many disruptions  
Will cause a man to fall  
Hear my final statement  
And how the lost souls call

All the words for nothing  
We are better off alone  
Leave me in the gutter  
Before you're driving home

## Sweet Dancer

The girl goes dancing there  
On the leaf-sown, new-mown, smooth  
Grass plot of the garden;  
Escaped from bitter youth,  
Escaped out of her crowd,  
Or out of her black cloud  
Ah, dancer, ah, sweet dancer!

If strange men come from the house  
To lead her away, do not say  
That she is happy being crazy;  
Lead them gently astray;  
Let her finish her dance,  
Let her finish her dance  
Ah, dancer, ah, sweet dancer!

# Control

Was it all for one?  
Or was it one for all?  
Is it something I can control?  
Do you know my life?  
Would you go my way?  
Or would you simply walk away?  
Is this worth the fight?  
Could this be my night?  
I've been waiting for  
So was it all for one?  
Or was it one for all?  
Is it something I can control?

Was it all for one?

So was it all for one?  
Or was it one for all?  
Is it something I can control?

Theories of live  
Matter froze the store  
Empty words without a soul  
So carry you're advice  
Secret words to call  
Your casualties will need them all

Was it all for one?  
Or was it one for all?  
Is it something I can control?

# Pathway

Lend me your fields of thoughts  
And I will harvest all I can  
To turn the seasons into years  
Before the winter steals it all

I know the pathway we can go  
Follow the barely growing trees  
Linger it light-flooded glades  
Testified emotions departing

This will be the end indeed  
See these hands  
Come pull me out of here  
Where is the light we seek  
We stole the fire  
From the hands of time

And as we struggle on and on  
Blind and hopelessly depressed  
Fading substance passing by  
Captivated moments endorsing
