## Totem

We shall elevate  
Before we suffocate  
And breathe through the water  
Unfold into this space

A space to drift in silence  
A place that we call home  
To reach out for one another  
Until the moment fades - forever gone

I ran away so many times  
So many nights that come and go  
With just one thing on my mind  
That one thing I can't let go

In my unambitious world  
You agitated me so  
I need to break out of here  
Reassemble this show

You help me to survive  
Bring back sensitivity  
I look into your eyes  
With long forgotten dignity

The peace in you  
Is the peace in me  
Is the peace in us

## Substance

And the feeling never shows  
I'm truly awake  
I'm sensing your touch, another fake

I keep breathing away  
I'm living through this day  
As it was the best time, of our life

Deliberately I am here  
Exchanging all my hopes and fears  
For nothing, for nothing  
Let them go to find someday  
A profound meaning on my way  
To substance, to substance

Take a rest and look around  
Achievements are for nowhere bound  
For nowhere, for nowhere  
The time will come when you decide  
How much of value is inside  
Your substance, your substance

Deep inside I always knew  
Your complicated love is true  
Devotion, devotion  
The sun will set for one last time  
Before we struggle and deny  
Our substance, my substance

## Our Time

Industries, world disease, hyper-sleep  
Give and take, build/bend and break, bread and games

Needful things, distant dreams, meaningless  
NGO, UNO, buy and sell

Let the music never stop  
And devotion lead our thoughts/and emotions lead our thoughts  
Send this signal to the skies

All you lonely souls in the distance  
This is our scream for resistance  
This is our time, this is our life

Let the music never stop  
And devotion lead our thoughts  
This is our time, this is our life

Deity, democracy, pornography  
Teach and learn, watch and burn, hide and seek

Great distress, sightlessness, solitude  
NRA, CIA, shoot and kill

## The Promise You Made (feat. Lis van den Akker)

If I laid down my love to come to your defense  
Would you worry for me with a pain in your chest?  
Could I rely on your faith to be strong  
To pick me back up and to push me along?  
Tell me  
You'll be there in my hour of need  
You won't turn me away  
Help me out of the life I lead  
Remember the promise you made  
Remember the promise you made

If I gave you my soul for a piece of your mind  
Would you carry me with you to the far edge of time?  
Could you understand if you found me untrue  
Would we become one, or divided in two  
Please tell me  
You'll be there in my hour of need  
You won't turn me away  
Help me out of the life I lead  
Remember the promise you made  
Remember the promise you made

Could I rely on your faith to be strong  
To pick me back up and to push me along  
Please tell me  
You'll be there in my hour of need  
You won't turn me away  
Help me out of the life I lead  
Remember the promise you made

## Lost in Grace

All is lost in grace  
I'm tired of the human race  
With everything out of place  
Beaten paths mislead our ways  
Don't you ignore what you see  
Don't you forget about me

Cooling my mind  
Dreadful, unkind  
Likewise declined  
Unlikely to shine

Troubling game  
What was your name?  
Seconds of fame  
Unlikely to remain

You on my mind  
Dreadful, unkind  
Likewise so blind  
Unlikely to shine

Twisted idea  
Challenge or fear  
Tear after tear  
Unlikely to disappear

## New Waves

And the waves flow  
And the lights blow  
And your bright smile  
Beam me up, yeah!

Utopia - my loving home  
So long I have been waiting  
Now I cannot let you go

Insomnia - I'm on my own  
At night those pictures haunt me  
I'm addicted to their show

My Comeliness - Where is your crown?  
I always have adored you  
Now the filth covers the facts

Deliverance - I'm going down  
Too long I have been tied-in  
I'm unfolding to your acts

As I am waiting for our time  
I am swimming against the stream  
I'm running  
I'm running to stand still

As I am waiting for our time  
I am bleeding for our dream  
I'm running  
I'm running to stand still

Indifference - my faith has gone  
These bonds will last forever  
And will never come undone

Magnificence - your light shines on  
At night I will be waiting  
I'm addicted to your show

## Vertigo

I'm floating on  
Illuminated oceans  
Of sparkling metaphors  
And can't find the words to say

Go break my heart  
A final cruel emotion  
Before we're left alone  
With another night to drown

A symphony in vain  
And bodylines to go insane to  
This is what you are  
This is why I feel for you

So wicked yet so pure  
And looks that make the iron melt  
How can I not fall?  
This is why I'm falling for you now

A captivating light  
I'm captured by your inspiration  
How can I go on,  
How can I not lose my way?

I'm going up in flames  
While you stand there and watch me flicker  
What is there to fear?  
What if we had only this one night?

## To the World

And when my soul is forced to speak  
My heart becomes magnetized to you  
Holding on to every little piece  
Of this illusion

I am the rage inside your head  
Giving out all the dreams you had  
Giving out all your little secrets  
To the world

I am the blind man in the corner  
Watching the beauty on the street  
Faking a smile within this madness  
To the world

I am the homeless thought of chaos  
Roaming the surface when you sleep  
Leaving no trace, but leave you lonely  
To the world

## Omen

Now this is what I wanted  
And this is what I get  
I'm standing at the crossroads  
I'm never looking back

The next step is the hardest  
And nothing to regret  
I'm smiling at the barricades  
I'm never looking back

The longing in her eyes  
I can't recover from  
A devil in disguise  
Or a queen to worship

You're crawling on the floor  
Or tied up in a chair  
Your blissful, sweet salvation  
Is just a heartbeat away

Your eyes wide open  
My mind on fire

With every single stroke  
You're tearing up my soul  
My body on remote  
To refuse is worthless

We enter a new sphere  
Uncertain what may be  
Your absolute allegiance  
Is just a heartbeat away

## Satellites

I'm beholding  
Dreams of the past days  
When we were satellites

I am roaming  
These dark horizons  
To find some peace of mind

Treat me like a prison wall  
You stand and stare you watch me every day  
You're trapped inside don't know what lies beyond

Feed me like a choking ball  
You open wide and swallow every grain  
Alone tonight you're dying for emotional response

Chase me like a racing car  
You lag behind your engine is too weak  
Switch on your mind and hit the brakes now

Erase me like a parasite  
You overpopulate my hemisphere  
Beware yourself I'm going for hysterical release

## The Fortress

The fortress of amazing love:

Legal entity

Beholding a world of assassination,

Weak humanity

Stay awake as long as you can

Escalate the meaningless plan

Trippin, Trippin

Stay away as far as you can

Dominate the miserable clan

Trippin over my own deceit

Burnin' in demolishing heat

Stay tonight as close as you can

Overwrite the previous plan

Slippin', testified to this treat

Meltin' in demolishing heat

## Getout

I never expected to be here,  
In this collision of fear  
I underrated their smartest moves  
Bring/Help me up, get me out of here

I never expected to go bust,  
With this cohesion we trust  
While this depression creeps all around  
Help me up, get me out of here

Where are you?  
Where are you?
