# Gambit

When one of us is cut  
We both bleed  
We're soulmates  
We're discrete

But you my friend  
Were first on the scent  
In spyhole land  
You hear me

Gambit - take it  
Accept or decline  
She's mine  
She could be yours

Entitlement beyond your means  
She's the centre of all my dreams  
She's the asset in all my games  
You will never find a better ladyfriend

Entitlement beyond your means  
She's the centre of all your dreams  
She's the asset in all my games  
You will never find a better giveaway

Gambit - take it  
Accept or decline  
She's mine  
She could be yours  
Tonight

When one of us is cut  
We both bleed  
And we tend to swap seats  
For real  
Now she's behind the wheel

Since you my friend  
Were first on the scent  
In spyhole land  
You hear this

Gambit - take it  
Accept or decline  
It's fine  
I could be yours

Entitlement beyond your means  
I'm the centre of all her dreams  
I'm the asset in all her games  
You will never find a better boyfriend

Entitlement beyond your means  
I'm the centre of all your dreams  
I'm the asset in all her games  
You will never find a better giveaway

Entitlement beyond your means

She's the centre of all my dreams  
She's the asset in all my games  
You will never find a better ladyfriend

# Hurricane

I've had a couple points of no return  
And just about as many lessons  
I thought I'd learned

My words were pure  
I had something to say  
So if she really loved me  
She loved me in a cold way  
A very cold way

Every day  
Further away

The snare is a fist  
The kick is a heart  
The launch is a lie  
The piece is not art

Hurricane start turning  
Curse fuel yearning  
Live code red  
It's all in your head  
It's all in your head

Get ready for the deep hit  
For the blow below the belt

She's using up my resources  
She's beating the deadest of horses

My words were pure  
I had something to say  
And if she really loved me  
She loved me in a cold way  
A very cold way

Every day  
Further away

The snare is a fist  
The kick is a heart  
The launch is a lie  
The piece is not art

Hurricane start turning  
Curse fuel yearning  
Live code red  
It's all in your head

# Shine

A dead star is what you are  
Pretend you still shine  
Crave for affection and time

I drowned the other one  
Almost in passing  
Almost unnoticed  
To the world

A dead star is what you are  
Claim you can shine  
Steal my devotion and time

I drowned the other one  
And since that day  
I walk like a shadow  
I sleepwalk, I fade

Shine  
You shine  
You shine  
It's as simple as snow  
You are wasting my time

A dead star is what you are  
Insatiable, incapable  
A taste, a sense  
A waste, a waste of time

It has begun  
I'm bland, I'm milk  
I'm worse, I'm water  
And life ain't no fun  
Life ain't no fun

Shine  
You shine  
You shine  
It's as simple as snow  
You are wasting my time

Shine  
You shine  
You shine  
It's as simple as day  
You are wasting my time

Der Vater hat ein Fieber  
Und das Fieber tut ihm gut  
Denn der Vater denkt die Dinge  
Die er sonst nicht denken tut

Der Vater hat ein Fieber  
Und das Fieber tut ihm gut  
Denn der Vater denkt nun Dinge  
Die er sonst nicht denken tut

# Never Take Fire

Cracks in the shell  
You're not doing so well  
You're hoping for a raid  
You're dying to get laid

You've started talking to strangers  
You've dropped all demands  
Your head is in a sling  
You'll do anything  
Anything

You keep scratching the faces off coins  
You've collected  
As part of your dream  
Of a picture-book future  
Full of picturesque scenes

You descend all the way to the end  
Cause a sere soul  
Merely glows like coal  
It never takes fire  
It never takes fire

From in front of you  
From behind of you  
From the side of you  
From above  
From below  
The walls are closing in  
Real slow

You keep scratching the faces off coins  
You've collected  
As part of your dream  
Of a picture-book future  
Full of picturesque scenes

Now you descend all the way to the end  
Cause a sere soul  
Merely glows like coal  
It never takes fire  
It never takes fire

You keep scratching the faces off coins  
You've collected  
As part of your dream  
Of a picture-book future  
So many picturesque scenes

And you descend all the way to the end  
Cause a sere soul  
Merely glows like coal  
All the lights up in the sky  
Still you don't know how to fly  
Still you don't know how to fly

## Just the Same

More lips than you would ever want to kiss  
They form your name now  
They're reaching out

More crooks who know exactly where you live  
They shout your name now  
They're reaching out

They call your name  
It's just the same

The road is wrong  
And here you are speeding further on  
They call your name now

You don't live the life you want  
We don't give you what you need  
We paraphrase your need for change  
Then feed you more of just the same

Wrong  
And here you are speeding further on  
They call your name now

You don't live the life you want  
We don't give you what you need  
We just paraphrase your need for change  
Then feed you more of just the same

More hips than you would ever want to touch  
They dance your name now  
They're reaching out

More rooks who know exactly who to watch  
They shout your name now  
They're reaching out

They call your name  
It's just the same

The road is wrong  
And here you are speeding further on  
They call your name now

You don't live the life you want  
We don't give you what you need  
We paraphrase your need for change  
Then feed you more of just the same

Wrong  
And here you are speeding further on  
They call your name now

You don't live the life you want  
We don't give you what you need  
We just paraphrase your need for change  
Then feed you more of just the very same

You don't live the life you want

## Beyond Repair

Inhale

The dial tone for hours  
Because it sends  
A message to your heart

The void

When all is said and done  
You're bruised  
Cursed to turn and run  
Every time  
Every single time

And the sadness will return  
And the pictures will fade  
You're falling silent again  
Cause there's nothing left to say  
And you're running out of air  
You are far beyond repair

Yes the sadness will return  
And the pictures will fade  
You're falling silent again  
Cause there's nothing left to say  
And you're gasping for air  
But you are far beyond repair

Exhale

The memory you caught  
When you returned  
To the crossroads and the hurt

The void

Cause all is said and done  
And you choose  
To turn around and run  
Every time

You have chosen to accept  
That every hope has left  
And you learn to ignore  
What the diagnoses show  
Your family sends quotes from Voltaire

And the sadness will return  
And the pictures will fade  
You're falling silent again  
Cause there's nothing left to say  
And you're running out of air  
You are far beyond repair

Yes the sadness will return  
And the pictures will fade  
You're falling silent again  
Cause there's nothing left to say  
And you're gasping for air  
But you are far beyond repair

# Demons Crawl

I water all my reasons  
Pain can nourish pain  
I whisper seeds for droughts  
Into a garden of doubt

And sometimes  
I can catch the notes that fall  
And the music sates like grain

And sometimes  
I can catch the notes that fall  
But the Keeper takes them all

But you see the demons crawl  
They lick my skin and shake the walls  
They lace my drink I cannot think  
The demons will not blink

You see the demons crawl  
They lick my skin and shake the walls  
They lace my drink I cannot think  
The demons will not sink

I shelter all your reasons  
Pain can nourish pain  
I whisper seeds for droughts  
Into a spiral of doubt

And sometimes  
I can catch the notes that fall  
And the music sates like grain

And sometimes  
I can catch the notes that fall  
But the Keeper kills them all

And you see the demons crawl  
They lick my skin and shake the walls  
They lace my drink I cannot think  
The demons will not blink

You see the demons crawl  
They lick my skin and shake the walls  
They lace my drink I cannot think  
The demons will not blink

You see the demons crawl  
They lick my skin and shake the walls  
They lace my drink I cannot think  
The demons will not sink

## (Do I Have) Your Word

There's nothing we don't know by now  
The fairy dust is gone  
Waking from the longest dream  
Drenched in sweat and shivering

Back and forth and forth and back  
The eerie sense of suede on skin  
Waking from the longest dream  
Drenched in sweat and shivering

Save me from myself  
Hold me in your arms  
Keep your promise  
Tie me down

Save me from this life  
Hold me in your arms  
Watch me fall apart  
And burn this wasted heart

Glücklich ist  
Wer vergisst  
Was doch nicht zu ändern ist

Save me from myself  
Hold me in your arms  
Keep your promise  
Tie me down

Save me from this life  
Hold me in your arms  
Watch me fall apart  
And burn this wasted heart

One day it will be the ocean

Do I have your word?

Glücklich ist  
Wer vergisst  
Was doch nicht zu ändern ist
