# Lam-'Bras

Drunk noise, wake up drawning in the mind  
Wake up, far away a ring, wake up  
Climbing steps, follow me, wake up, dead  
Awake

A world is broken down  
Yesterdays laugh far away  
Realizing the reality  
Tell me why  
Who can tell me why?  
Realizing the reality

Give me answers now  
Needing help from anywhere  
Searching books and theories  
Trying to understand

Covered answers in the mind  
Needing help from anywhere

Searching, trying, flying  
Wings which bring confusion  
A light far away  
Hiding in reality  
Feelings waving up and down  
World's turning  
Round and round  
Everything looks crazy  
Life's got no break  
Chosen the shock to understand

This here isn't inside  
This here is the outside

Way and illumination  
Weg und Erleuchtung

# Go Further

Look at this planet healthy and young  
Look closer  
You'll see the woods  
Day after day  
Swelled up with strength  
Their richness of colors  
Sparkling in dazzling grey  
Children so happy and healthy  
Happy of having a home like this  
Here they can grow up  
With no sorrows  
They need our love  
As they are the future  
This planet blossoms  
How no rose could

Come on humanity  
Awake, awake  
This is just another dream

Yet look even closer  
Every step of ours  
Gets more energetic  
The deeper we go  
Clean air fills our lungs  
There's no reason not to go further  
Not to go further

But then, suddenly  
Slowly, very slowly  
It runs through our fingers  
The time is running out

But why isn't it happy  
Being a part of us?

# Thoughts and Fear

Sitting in the grass  
The sunlight kisses the skin  
Birds singing in the sky  
You breathe the air  
Feel the love  
And warm winds are  
Playing with your hair

Wake up  
The appearance is treacherous  
If you are inactive  
You can't stop the destruction  
Do something right now  
Or it will be too late

Laying in the sand  
Waves are foaming  
Kids are playing on the beach  
The sunset freshens up your soul  
And birds are gliding  
With the breeze  
Birds are gliding with the breeze

The sun is reflecting  
Not on the water  
But on the oil  
This planet is contaminated  
Thank you, humanity

# Conjure

I wanna be a creature  
Before humanity is on earth  
No hate, no wars, no ignorance, no force  
Only one with mother earth  
No sorrow escorts us from our birth  
Be a bridge over the river of love  
From justice to happiness  
Set up by the hands of freedom  
From justice to happiness  
Set up by the hands of freedom  
Fed up by the hands of freedom

Yet wishes could be true  
Don't turn away, it could be you  
The answer will roar at us  
If we listen into ourselves  
We twaddle since centuries  
About justice and peace  
We're living in a material world  
Supported through avarice  
Mendacity is so alive  
We conceal love and light

Today we're abusing  
Animals and nature  
To enrich ourselves  
To enrich ourselves

We're sleeping so deep  
While the bomb is ticking  
We pity ourselves  
While the fear is kicking

We're sleeping so deep  
While the bomb is ticking  
We pity ourselves  
While the fear is kicking

Now it's time for the world  
To see a man with open eyes  
Now it's time to realize  
We tell ourselves the best of lies  
Now it's time to see the fact  
We all are the unity  
Now it's time for us  
To deliberate our aim  
To deliberate our aim

No hate  
No wars  
No ignorance  
No politics  
No pain  
No force  
No weapons  
No oppression  
No sorrow  
No chemicals  
No dust  
No leaders  
No violence  
No dust  
No leaders

No leaders

Now it's time for the world  
To see a man with open eyes  
Now it's time to realize  
We tell ourselves the best of lies  
Now it's time to see the fact  
We all are the unity  
Now it's time for us  
To liberate our aim

Now it's time for the world  
To see a man with open eyes  
Now it's time to realize  
We tell ourselves the best of lies  
Now it's time to see the fact  
We all are the unity  
Now it's time for us  
To liberate our aim

To liberate our aim  
To liberate our aim  
To liberate our aim

Now it's time  
Now  
Now

See that aim  
See that aim

Now it's time  
For the world  
To see a man  
With open eyes  
Oh, with open eyes

# Floating Dolphins

Floating dolphins over the ocean  
Veil of mist  
Reflections of them on the water  
Standing on a cliff

It's like a dream

Forgive them  
For what they've done upon you

# Storm World

History of the world  
Painted with blood  
Every single page  
A neverending chain of hate  
Rattling bodies in the trench  
Pyramids build out of corpses  
We don't realize the end  
We still go on and on and on

Let's sell our slaughter toys  
I want more money  
We want more money  
Let's rouse another war  
I want more blood  
We want more blood

Come to us  
We're here in the darkness  
Come to us  
We'll make you crawl

Come on and join the army  
Die for us, die for us

From cudgel to arrow  
From nerve gas to atom bomb  
I can't stand it anymore  
'Cause the pressure's gettin' sore  
Why do we conjure up devils  
As they live already beside us

# Compliance

# Tale of a Walk on the Ice

It was a cold winter day  
When we died in the morning light

We walked on ice  
Holding hands  
Blended by the snow  
Blue sky  
Icy air stabling in the lungs

We walked on ice  
In the morning light  
Don't be afraid follow me  
Over the frozen sea

Follow me

A sharp crunch  
A last squeeze  
Then the ice broke  
And we died under the ice

Everything's calm  
We forget the pain  
And look around  
There's a light  
It attracts us  
We are drawn to it

Come to me

We walked on ice  
In the morning light  
We saw the light

Come to me

# Entering the Life Towards Illumination (Bodhisattvacaryatara)

How long will we still be blended by greed and hate?  
Have we forgotten how to walk towards each other?  
Now the time has come to meet in love

Love is precondition for harmony, charity and peace

Each one depends on it  
And is useful for the one who practices it

His community  
His homeland  
And the whole world

But when we lose the sense for love  
Will enemies keep on existing between  
Human beings and other creatures?

If the happiness of this mankind is of importance  
Love is the only solution  
Far away  
From agony and pain

First ask yourself what is acceptable for mankind  
Then avoid the contrary
