## α Ω

Imagine a child  
Living in a dark place  
Being accused of being a failure  
Nothing is right  
Everything is wrong

Imagine this child  
Growing up in a world  
Which pays no attention  
To its positive behavior  
Always noticing the bad things  
Always noticing the bad things

Imagine a person  
Appearing on this scene  
Giving love  
Giving back its self-esteem  
This child will turn away  
From its hopeless past  
And continue its life  
In conscience and trust

The same could be with humanity

Alpha Omega  
Alpha and Omega

Small things are big  
Huge things are small  
Tiny acts have huge effects  
Everything counts  
Nothing's lost

Imagine a crayfish  
Thrown into boiled water  
It will try to escape  
As fast as it can

But imagine this crayfish  
Put into clear cold water  
And imagine this water  
Slowly heated up  
This crayfish will stay motionless  
Until he's cooked to death

Same happens to humanity  
Same happens to humanity

# Silent Scream

Blocked mind  
You can't go through - miss  
Manipulated move  
I can't handle this  
Controlled dreams  
The real one  
Never comes true  
Passive eyes  
They never will see through

Silent screams  
Causing no reaction

The maggot is waving with the cross  
Living in his own world  
He thinks he is the boss  
Celebrating rituals  
He'll never understand  
And the worst thing is  
The world lies in his hands  
God is dying in mother's womb  
So trust your own instinct

Stop the holy bomb

Constructed ways  
Built up for us  
You feel the comfort  
You spend them your trust  
Decisions about  
Things you can't know  
Will made by them  
Controlled dreams  
The real one  
Never comes true  
Passive eyes  
They never will see through  
So spit on this lie  
And find your own aim

# Cold Heart

We're living in a thoughtless age  
Especially with the scare of AIDS  
With the scare of the military wonderboys  
'Cause they like to play with their deadly toys

There was a land so nice and green  
Now it turns into a wasteland scene  
They say they do it for you and me  
That's a lie  
War is just a good economy

Many lost on broken land  
Leaders lie and people die  
Broken arms and bloody hands  
Many dead on broken land

Many lost on broken land  
Leaders lie and people die  
Broken arms and bloody hands  
Many dead on broken land

Try to stop that  
Don't ignore  
Get back to your dreams and fantasies  
Leave your fingers from the cold heart  
If you like to survive keep your mind alive

Try to stop that  
Don't ignore  
Get back to your dreams and fantasies  
Leave your fingers from the cold heart  
If you like to survive keep your mind alive

There was a land so nice and green  
Now it turns into a wasteland scene  
They say they do it for you and me  
That's a lie  
War is just a good economy

Many lost on broken land  
Leaders lie and people die  
Broken arms and bloody hands  
Many dead on broken land

# Green World

Green world  
Soundless drifting over the green  
A breeze let me fly higher  
Higher and higher

Waterfalls  
I'm floating in  
Cool crystal water  
Purity all living in  
Peace, freedom

On the ground  
Green light  
Wet heat  
Live is filling everything  
Never silence  
Lovely sounds from above

Trees  
Live-giving gods  
Bowing to live  
Never fading  
Guarding everything  
Vibrations in the air  
Flying jewels  
I'm the forest

# Requiem

They follow me on a misty early morning  
Dancing like fools they can't stop  
Hypnotized eyes  
They're marching in a queue  
Stumbling feet are raising dust in the avenue

They'll dance until they're exhausted  
One by one  
Death caused by flute  
Like rats they are all leaving the town

I'll get them all  
Kill them all  
One by one  
They'll fade away  
No hope for them  
They will obey

I'll get them all  
Kill them all  
One by one  
They'll fade away  
No hope for them  
They will obey

One by one  
One by one  
One by one  
One by one

They follow me  
That's the price they pay  
Vibrating sounds in the air  
And the sky is grey

I did it before  
And I'll do it again  
Another time  
Another way to pay

They'll lose their children  
'Cause I am now back again  
They don't notice the way  
I'll make them insane

Their kids are sitting  
In front of machines  
No more vibrating sounds  
But hypnotizing lights  
They're staring into monitors  
They're staring into monitors

I'll get them all  
Kill them all  
One by one  
They'll fade away  
No hope for them  
They will obey

I'll get them all  
Kill them all  
One by one  
They'll fade away  
No hope for them

They will obey

One by one

One by one

One by one

One by one

I'll get them all

Kill them all

One by one

They'll fade away

No hope for them

They will obey

I'll get them all

Kill them all

One by one

They'll fade away

No hope for them

They will obey

One by one

One by one

One by one

One by one

# Revolution Now

For all who didn't get it yet  
We're living in the age of change  
That means you should change yourself  
Don't wait until the others will

You have the power to change the world  
You have the power to change the world  
Small reason huge effect  
Small reason huge effect

Time is running away  
Second for second  
Break out of your mind-cage  
And control your rage

Time is running away  
Second for second  
Break out of your mind-cage  
And control your rage

You're responsible  
You're responsible  
Understand that  
Understand that  
Don't be a cogwheel anymore  
Don't be a cogwheel anymore

Don't be a cogwheel anymore

Don't sit there  
Move your ass  
One is all  
And all is one

Don't sit there  
Move your ass  
One is all  
And all is one

Every little thing you do  
Causes huge effects  
Every little thing you do  
Causes huge effects

The whole world  
Depends on your actions  
The whole world  
Depends on your actions

You're responsible  
You're responsible  
Understand that  
Understand that

The moon is red  
The sun burns  
The moon is red  
The sun burns

Time is running away  
Time is running away  
Second for second  
Second for second

Time is running away

Second for second  
Break out of your mind-cage  
And control your rage

Time is running away  
Second for second  
Break out of your mind-cage  
And control your rage

You're responsible  
You're responsible  
Understand that  
Understand that  
Don't be a cogwheel anymore  
Don't be a cogwheel anymore

Don't be a cogwheel anymore

# The Longing

Dreamworld  
Boundless mind  
Spirit's free  
Now I am an eagle  
Flying high

Now I am a stag  
Graceful moves  
Wandering through forests  
Being one with the universe

But where are you?  
I am calling your name  
Where are you?  
I am calling your name

# Endzeit

Wir rollen auf den Abgrund zu  
Und trinken Sekt dabei  
Jeder will das größte Stück  
Jedoch die Welt - sie bricht entzwei

Wir benehmen uns wie ein Krebsgeschwür  
Denn wir zerstören den Körper  
Auf dem wir existieren  
Wenn wir uns nicht selber bremsen  
Wird er kollabieren

Versteht, dass es um Liebe geht  
Geld kann man nicht fressen  
Reiß dich los, denn sonst ist es zu spät  
Wir zerstören wie besessen

Konsum, das ist das Ziel unserer Zeit  
Wir fressen alles in uns hinein  
Geldverdienen ist das oberste Gebot  
Wir verbreiten Gestank, Leid und Tod  
Wir verbreiten Gestank, Leid und Tod

Die Selbstverantwortung wurde uns genommen  
Von dem Konzern, der sich Kirche nennt  
Ein alter Mann, der nicht weiß, worum es geht  
Redet von Dingen, die er nicht versteht  
Redet von Dingen, die er nicht versteht

# The Animal

I don't feel the need  
to behave anymore  
and if you try to hold me back  
I'll lick your bones

Pulsating fire  
Inside of my veins  
You need me  
Never let me go

I'm an animal  
No one can see  
I'm an animal inside  
For you and me

I'm an animal

Pulsating fire  
Inside of my veins  
I suck you up  
I'm an animal

I suck you up  
I'm poison for you  
I'm an animal

$\Omega \alpha$
