Human Crossing

Long halls
White rooms
A cage
A name
Rat 41
Distress
The rest is imagination

Where have I been?
A pain in my body
I taste blood
Where is my home?
Cruel eyes
A hand is reaching for me
The rest is imagination

Is it raining outside?
Is there a sun?
Is there a sky?
Is there compassion?

Dazzling lights
Needles
Injections
Almond eyes giving hope
In the night
Almond eyes
The rest is imagination

Where have I been?
A pain in my body
I taste blood
Where is my home?
Cruel eyes
A hand is reaching for me
The rest is imagination

Where have I been?
A pain in my body
I taste blood
Where is my home?

Where have I been?
A pain in my body
I taste blood
Where is my home?

Where have I been?
A pain in my body
I taste blood
Where is my home?

Where have I been?
A pain in my body
I taste blood
Where is my home?

2069 AD

Working on a machine
In this building
Do you know what I mean?
The walls are grey
So are the thoughts
They all obey
Living in this state
Is like hell
Fear dominates
Everything is upside down
Aggression rules
In this town

My mind is collapsing
Minds are collapsing
Is this the end?
Crowds are walking
My mind is collapsing

No one laughs here anymore
If someone cries
They do ignore
Living in this machine
Only watchwords
On the screen
Nature is annihilated
And sex life
Is regulated

Love is abused
Money is god
No one refused

Wipe out this town
My mind is collapsing
Wipe out this town
Is this the end?

Malicious Delight

A town cold and dark
Nothing's real
What do you feel?
You wanted to live forever
And now you got
Nightmares, aggression and death

You got what you deserved, moneyman
You destroy anything you can
No need to cry
No need to preach
You're destroying everything
You can reach

Deserts, no trees, no grass
No water anymore
Emptiness in the minds
No one can help you now
No one is left to change anything
You wanted to rule
Now you're the king
Of a dead world

Now you go there
Alone and sad
But now you live here forever
And that's not bad

Alien Crossing

I'm wandering around
In this foggy foul town
It's a terribly silent night
I don't know where I was
And I hardly remember who I am
It's raining again

Depressive light in the streets
The streetlamps are flickering
Like the few souls
Which still are living here
Cold rain on my skin
Makes me shiver
Makes my live passes by
What have I done?
Where have I been?

Where have I been?
A pain in my nose
I taste blood
Where is my home?
I sink onto my knees
What have I done?
Where have I been?
As I look into the sky
A light passes by

Wind blows through my hair
What happened?
I can't remember
I'm still walking
But I don't know where to go
Eyes everywhere
I'm feeling observed

Time

God Wrote

A dead world
Pollution
Heat waves
Poison in the air
The flood comes
War everywhere

God wrote the fullstop

Running to you
As fast as I can
I try to reach you to save you
To be with you the last time
The last time before we die
I try to reach you
As fast as I can
Running to you to save you
To be with you the last time
The last time before we die

It's too late
To solve the problem
Deserts grow
Children die
Cities have been grown
Far too long
This planet finally revolts
Against humanity
The flood comes!

Rush

Lying on the floor
Looking to you
I'm so bored, so bored
What if you didn't loved me
Like I loved you?
Your smooth grace pleased me
I gave you everything I could
It wasn't enough for you

You, you lied to me
So I had, I had to do
Something against my pain, against my pain
You lie there like
A flower in the snow
Do something against my pain

You senseless, careless, nothing
I'm lying by your side
As you're getting colder
The good times, the bad times
We had now fade away

December Sadness

(lalalalalalalala...)

Thick clouds over the town
She's alone in her room
Icy wind in the streets
Snow falls
She's alone in her room
Surrenders to December sadness

No light in this room
Blue painted walls
Black curtains
Night all the time
The time the time
All the time

She's waiting night and day
She's waiting for you

Candles are burning
Tears are falling
Ice on the window
She's waiting

(lalalalalalalala)

A glass of red wine
Snow's still falling
She remains in December sadness

A glass of red wine
Snow's still falling
She remains in December sadness

A glass of red wine
Snow's still falling
She remains in December sadness

A glass of red wine
Snow's still falling
She remains in December sadness

A glass of red wine
Snow's still falling
She remains in December sadness

A glass of red wine
Snow's still falling
She remains in December sadness

A glass of red wine
Snow's still falling
She remains in December sadness

Temptation

Curly hair around your neck
Black boots, long legs
You know I love the details
That's why you got red fingernails
You are moving like a cat
Sweet bitch, turn around
Give me your... back

Black cat
Scratch my back
Sweet witch, I penetrate you
Your love is like a combat

Your lips taste like honey
Your bed is a trap for me
Bites of lust, milk on your chest
Master and servant
I lick your neck

Please forgive me
I want to die in your arms
You mean everything to me

Your smile is demoniac
Sweet bitch, turn around
Give me your... back

Tower of Lust

This night I'm feeling feeling drowsy
Purity of the thoughts
Tender skin on white pillows
You pull me back to our dreamlands
An island of love

In and out

I see you, I feel you
Movements of ecstasy
We fuse together
Close embraced
Praying for eternity

Eyes like stars
I feel your warmth
Do you feel mine?
Your odour, like a drug for me
You soak me up
Our minds are free
Wine on the blanket
Is this reality?

I see you, I feel you
Praying for eternity

I see you, I feel you
Movements of ecstasy
Praying for eternity

Celeste

The first time I saw her
My heart broke apart
She's dancing like a goddess

She's so fine
I want to make her mine

Looking in her eyes
Makes me realize
I've got to know her
I've got to get her

You're taking my breath, Celeste
You push me down on my knees
Oh baby, please give me the rest, Celeste
I want to kiss your luscious lips
Oh baby, please give me the rest, Celeste

Her voice sounds like a fallen angel
Her body's wrapped in black leather
She attracts me
She touches my soul
I want to stay
She makes me rise
Then she turns away

I'm just a figure in the game she plays every night
With every man who catches her sight

I'll Find My Way Home

You ask me where to begin
Am I so lost in my sin?
You ask me where did I fall
I'll say I can't tell you when
But if my spirit is lost
How will I find what is near?
Don't question I'm not alone
Somehow I'll find my way home

My sun shall rise in the east
So shall my heart be at peace
And if you're asking me when
I'll say it starts at the end
You know your will to be free
Is matched with love secretly
And talk will alter your prayer
Somehow you'll find you are there

Your friend is close by your side
And speaks in far ancient tongue
A seasons wish will come true
All seasons begin with you
A world we all come from
One world we melt into one
Just hold my hand and we're there
Somehow we're going somewhere
