# Daimonion (You Hear Me in Your Dreams)

Six - you close your eyes  
Five - control your breath  
Four - you feel the warmth  
Three - relax your mind  
Two - do you feel safe?  
One - now you are here

It seems to be unreal  
The colors fade away  
Like a puppet on a string  
Where will we march today?  
The string was always there  
It leads up to the sky  
The colors fade away  
Who can tell me why?

Six - you've got to get to know yourself  
Five - or are you just a marionette?  
Four - following the subtle rules  
Three - given by the mighty  
Two - following the subtle rules  
One - given by the mighty

You've got to get to know yourself  
Or are you just a marionette?  
Following the subtle rules  
Given by the mighty

Day by day  
The same mistake  
A life ruled by fear and hate

Living for the weekend  
Is your meaning of life  
Now you tell me why  
You are living a lie

six - you close your eyes  
Who can tell me why?  
five - control your breath  
four - you close your eyes  
three - who can tell me why?  
two - you close your eyes  
one - close your eyes  
Who can tell me why?  
Who can tell me why?

# Timekiller

Go away, leave me alone  
I feel your presence in my mind  
The time seems to stop  
I set you free  
You calm my mind  
You calm my mind  
Make my dreams come true, baby  
Every time it seems to me  
That fiction and reality  
Melt together for eternity

Liquid words dropping down the stairs  
Filling the emptiness with sense  
You and me on the floor  
Floating on our sensibility

You need a timekiller and you don't understand  
I am like quicksand, lick it from my hand  
I am your timekiller, I'll let your mind expand  
I am like quicksand, lick it from my hand

Tick tock  
Tick tock  
Madness comes tonight  
What's reality compared to me  
I rest on the bed and I'm sure I slowly get mad

I'm in a state of mind  
Which makes me blind  
For the fact that I'm a man  
I'm here to stay forever but not today

You need a timekiller and you don't understand  
I am like quicksand, lick it from my hand  
I am your timekiller, I'll let your mind expand  
I am like quicksand, lick it from my hand

You need a timekiller and you don't understand  
I am like quicksand, lick it from my hand  
I am your timekiller, I'll let your mind expand  
I am like quicksand, lick it from my hand

In my heart is no place for you  
And in my mind is no space for you  
The exit already melted away  
And now there's nothing left to say

You need a timekiller and you don't understand  
I am like quicksand, lick it from my hand  
I am your timekiller, I'll let your mind expand  
I am like quicksand, lick it from my hand

You need a timekiller, and you don't understand  
I am like quicksand, lick it from my hand  
I am your timekiller, I'll let your mind expand  
I am like quicksand, lick it from my hand

# Sand-Glass

Who do you think you are?  
Stardust is what you are  
Since ages invading  
Poisoning and leaving  
From planet to planet  
From planet to planet

Look into a mirror  
And focus your eyes  
You'll hear a voice in your head  
Telling you to love instead of hate  
'Cause that's your fate  
And not a mind like lead

The answer sleeps in you  
Revive it with a kiss  
Can you see the death circle?  
Can you feel the emptiness inside?

Can you feel the rage and hate?  
Can you forgive yourself or anyone else?

This is the time of wonders  
This is the time of pain  
This is the time of beauty  
This is the time of vain  
There is no time to linger  
There is no time to lose  
The gates are slowly closing  
Please help me to choose

Could you stand to know the truth?  
The path of lies is easier  
The rain of possibilities  
Washed the signs away  
The battle is still going on  
Worse than ever  
Under the shadows of extinction  
I'll spread my wings to cover your soul

This is the time of wonders  
This is the time of pain  
This is the time of beauty  
This is the time of vain  
There is no time to linger  
There is no time to lose  
Do you forgive yourself or anyone else?

Can you feel the rage and hate?  
Can you forgive yourself or anyone else?

This is the time of wonders  
This is the time of pain  
This is the time of beauty  
This is the time of vain  
There is no time to linger  
There is no time to lose  
The gates are slowly closing  
Please help me to choose

This is the time of wonders  
This is the time of pain

There is no time to linger

There is no time to lose

Please help me to choose

# Jupiter (Or Somewhere Out There)

You feel me - feel with me  
You see me - see with me  
Feel the waves  
And now be the wave

You are like the ocean  
And I'm like the moonlight  
It seems I'm only reflecting  
On your surface  
But you know  
I reach your ground  
You're my ocean  
You're my life  
Let me be within you

Now the voices in the sky fall silent  
We're watching the sunset  
And the stars are our guardians  
In the coming night  
Which will last far too long  
Far too long

While the blue clouds  
Cover the orange sky  
The sweet taste of the air  
Slowly turns bitter  
The time of shadows  
Has just begun

You are like the ocean  
And I'm like the moonlight  
It seems I'm only reflecting  
On your surface  
But you know  
I reach your ground  
The time of shadows  
Has just begun

# We Are One (Mirror Split Up Into Pieces)

Standing and falling  
Running and crawling  
Stumbling towards the next day  
A numb feeling in my heart  
I look into your eyes  
And everything falls apart

You may kill me  
But the idea will survive  
The sleeper awoke already  
And now it's too late  
To put him to sleep again

I look into your eyes  
There is no boundary  
You make me realize  
We are one  
Mirror split up into pieces

We are one  
I look into your eyes  
We are one  
There is no boundary  
We are one  
You make me realize  
We are one  
Mirror split up into pieces

It was much easier to hide  
The darkness covered us  
Made us feel so safe  
A senseless fight for nothing  
In search of our own life

# The Clone

Good morning, world  
What's my destiny today?  
I feel so lost  
Got no past no history

Produced out of one  
Wisdom locked away  
Now I'm here  
Why don't you call me son today?

Face to face  
And eye to eye  
You created me  
And you don't know why  
Face to face  
And eye to eye  
You invented me  
And now you tell me why

They tried to fight  
Their fear of death  
And they created me  
And my fear for life  
What is it like to be loved?  
I didn't want this life  
I didn't want to live  
Beside you monsters

You evoke me  
Tell me what I'm here for  
Did you forget to think about it  
In the days of yore?

You were afraid to die  
So you cloned yourself  
Did you really think  
You could jump the space?

# Fear

There is nothing to fear  
If aggression is the result of fear  
The fear is the fear of aggression  
So if you are afraid of the aggressor  
You are afraid of a person which is afraid of you  
A person ruled by its fears  
And why should you be afraid of someone  
Who is behaving like a small child in the darkness?

Break the circle we are living in  
And don't be afraid, there's nothing to fear!

# Drone Assembly

We lost our sight for life  
We are walking on the dead  
There is no time for doubts  
There are no breaks in the male machine

# Drone State

The kingdoms are united  
And their opinion about us is clear  
You hear it and see it every day  
Their patience for us has gone away  
Our kingdom is divided  
And the wrong one  
Occupies the throne alone  
With blindfolded eyes  
She is just a shadow of herself  
On our path of lies

Do you see a difference between you and me?  
Do you see the wall built up between you and me?

We lost our sight for life  
We are walking on the dead  
There is no time for doubts  
There are no breaks in the male machine

You weren't right  
So sit down and just stay quiet  
All we've ever done  
Was not meant to stay  
And even if you pray  
It will melt down in her sun

# Mine (Beast of Prey)

The sun is shining  
It could be a wonderful day  
The children play outside  
While the birds sing in the sky

A warm breeze moves the grass  
And small feet squeeze it  
And while a butterfly passes  
You hear the children laugh

It's waiting in the dark

A tiny metal bar  
Peeps out of the ground  
Dew reflects the sun rays  
See me, see me  
Oh please see me

It's waiting in the dark

A stone is pushed back in the earth  
While a small soul pushes the metal bar

A tiny flash  
Disappears into the ground  
A soft click and with a hollow sound  
Slowly it ejects, irrevocable  
With a swirling movement like a butterfly  
It's slowly climbing high  
It passes the knees  
It passes the hands  
It passes the chest  
Until it reached its high  
Another click  
A fireball appears out of a shockwave  
The eardrums break

Like deadly insects  
A swarm of glowing spikes  
Bursts out of the red center  
While flying razorblades  
Peel the last laugh off the face  
Smeared with blood  
A firestorm burns down pieces of flesh  
On the red colored grass

Stop searching  
Hell is already here  
Yes we made it happen  
Worse than any beast of prey

Stop searching  
Hell is already here  
Yes we made it happen  
Worse than any beast of prey

Stop searching  
Hell is already here  
Yes we made it happen  
Worse than any beast of prey

Stop searching  
Hell is already here  
Yes we made it happen

Worse than any beast of prey

Stop searching

Hell is already here

Yes we made it happen

Worse than any beast of prey

Stop searching

Hell is already here

Yes we made it happen

Worse than any beast of prey

The sun is shining

It could be a wonderful day

# Citynight

You saved me from the black hole in my heart  
With you by my side I fly through the citynight

You're touching me  
With dazzling light  
Never-ending lust  
You substitute the night

With you my love  
Reality turns into fiction  
You charmed my mind  
And I love this sweet addiction

The citylights in front of us  
Are gleaming in the night  
Rush rush  
Or it will be too late  
To let my soul ignite

Strangers passing  
Never lasting  
Frozen faces  
They appear on the screens  
And they don't tell me anything

Let me share your wisdom - baby  
Let me become a part of you  
Nothing means anything to me but you  
You fill my emptiness inside  
With words giving me hope  
With you by my side  
I'll survive another night

# Last Call

Maybe it's the first time  
That you'll hear the voice  
We, he, she, it is love, is light  
Gives life, gives sound

We, he, she, it demands your attention  
'Cause we, he, she, it is, was and will be  
And you are not alone... trust  
Like we, he, she, it trusts you  
Now before and forever  
Now before and forever  
No matter who and where you are  
No matter who and where you are

We, she, he, it is everything  
The ground you walk on  
The air you breathe  
The water you drink  
And the fire in your heart

We, she, he, it is everything  
The ground you walk on  
The air you breathe  
The water you drink  
And the fire in your heart

We, she, he, it is you and me  
Her and him, this and that  
Everything together  
At the same moment

We, she, he, it is you and me  
Her and him, this and that  
Everything together  
At the same moment

So accept your divinity or deny it  
'Cause only gods can choose

So accept your divinity or deny it  
'Cause only gods can choose

# Existence v4.1

Everything is changing  
A constant flow  
Our existence - a photograph  
The time like slow-motion

Did someone realize  
That our life is based  
On the history we've been taught  
We are living the results of a lie

Fundamental facts  
Have been changed and changed again  
By the...  
And we keep their lie alive

Why don't you go on  
To kiss the ring  
On the finger of the hand  
Which turned your existence to hell

And while the cold wind blows  
We wonder why we feel so alone  
But we're always asking those for help  
Who constantly kept us away from the truth

Don't close your eyes anymore  
Don't cover your ears anymore  
Don't shut your mouth anymore  
Don't close your mind anymore

Everything is changing  
A constant flow  
Our existence - a photograph

We are living the results of a lie  
And we keep their lie alive  
We are living the results of a lie  
And we keep their lie alive

You let it go  
As if you know you are alone  
You always underrate the ability  
To change the state of mind

And what you'll find is hate so blind  
It destroys every way out of here  
And what you'll find is hate so blind  
It destroys every way out of here

Everything is changing  
A constant flow  
Our existence - a photograph  
The time like slow-motion

# The View

Love - is what I believe in  
And freedom is what I need  
But why do I suffer from love  
And why am I not free?  
The might sleeps in our hearts  
We should form it with our hands  
There won't be help from anyone  
Just you and me  
Purity and hope

The ability to love  
And curiosity  
Are our strong sides  
Self-hate and greed  
Are our weaknesses  
Spirit always was there  
Or it evolved to the point  
Where we are now  
But its origin is not of importance  
We don't use it anyway

You're wasting time following lies  
Break the chains of slavery

A devil does not exist  
It's just a metaphor for  
Giving free reign to our animal instincts  
While a full acceptance of these feelings  
Opens a door to another level  
In which harming even the freedom  
Of another person turns into nonsense

The growth rate of humanity  
Could be an indication of our origin  
Made to survive - at all costs  
This may be a cultural effect  
But it's somehow corresponding  
To the behavior of bacteria

Unlike other mammals  
We are living without the ability  
To produce vitamin c  
So - should we save the plants?

Perhaps we'll evoke the first  
Synthetic form of life on our planet  
And maybe that's all we are here for  
But nature spreads everywhere  
Will we bring life to other planets?  
Is this the plan of nature?

The freedom of choice  
Seems not to be wanted  
Because what we can do  
We will do  
But should we?  
This question is not really asked  
And even if the answer is no  
We will do it

And if art is a way  
To transport feelings and thoughts  
From here into the future

Then I hope that future generations  
Will judge our electronical middle age  
Not only for the things we did and will do  
But also for the hopes, dreams and love  
We felt within us
