Momentum

These words are like paperships
On the river of your attention
Sent to reach your ocean
And sink into its depths
Its water may help to unfold them
And its salt may wash their letters
Into the very meaning
Of who can see
The scene discribed right now
These words are like paperships
On the river of your attention
Sent to reach your ocean
And sink into its depths

The Deepest Place

They raise the light
And the darkness will fade
Your shadows will stay
If you don't move away
These shadows are yours
As you needed a proof
Your wish was fulfilled
Do you need it still?

Calm down for the alarm in your heart
Everything which moves in time must die
Nature is the largest spell we know
Listen to the alarm in your heart
Everything which moves in time must die
Nature is the largest spell we know

Souls in Ice

You are thinking - turn around
You are feeling - turn around
And you are here - aren't you?
You hear me - don't flee
You feel yourself
You ask yourself - what is this?
Hold this thought - don't flee
Close your eyes

Where is your center?
Where is my voice?
Does a stone move your heart?
Or a soul of your choice?

You are existing - aren't you?
You are emotion - aren't you?
You are flexible - aren't you?
You are following me - aren't you?
Physical - no
Feel yourself - locate yourself
Locate yourself - feel yourself
Close your eyes

These are my words - like souls in ice
Beside your mind - or into you

(Mehr als) Der Absprung

Dies ist mehr, mehr als ein Wort
Ein Wort ist mehr als Buchstaben
Dies ist mehr, mehr als Musik
Musik ist mehr als ihre Töne
Dies ist mehr, mehr als ein Bild
Ein Bild ist mehr als Formen und Farben
Dies ist mehr, mehr als eine Zahl
Eine Zahl ist mehr als eine Nummer

Dies ist mehr, mehr als Dunkelheit
Dunkelheit ist mehr als schwarz
Dies ist mehr, mehr als Licht
Licht ist mehr, mehr als weiß
Dies ist mehr, mehr als ein Kubus
Ein Kubus ist mehr als ein Raum
Dies ist mehr als ein Raum
Ein Raum ist mehr als das Nichts
Und selbst das Nichts ist nichts ohne dich
Du bist mehr als all dies zusammen
Denn ohne dich sind dies erstarrte Worte
Denn ohne dich sind dies erstarrte Worte

Lead and Feather

Whenever I can - I don't dare
Whenever I must - I'm aware
Every love just - gives me pain
Whatever I see - is the same
Where is the tunnel? - where's the light?
Where is the love - that they described?
I feel so empty - where is the path?
My soul is burning - in the dark

I see no sense - in going on
It doesn't matter - which side won
The pain grows stronger
With every word I say
So go away now - and let me stay

Where is the tunnel? - where's the light?
Where is the love - that they described?
I feel so empty - where is the path?
My soul is burning - in the dark

You are the center, you are the center
You are the love, you are the love
You are the meaning, you are the meaning
Coming from above, coming from above
You are the tunnel, you are the tunnel
And you are the light, and you are the light
But no one told you, but no one told you
You have the might, you have the might
You are the answer, you are the answer
Glowing in time, glowing in time
You've been the first thought
You've been the first thought
When will you shine, when will you shine?
The love surrounds you
The love surrounds you
Even if you burn, even if you burn
Your heart will tell you
Your heart will tell you

It's time to turn

Zeitfalle

Nicht alles, was du fühlst, kommt von dir
Du empfängst, was andere senden
Wir waren viel zu wenige
Um diese Schlacht zu gewinnen
Ihr seid nun unsere Rettung
Auf euch haben wir gewartet
Begeht nicht die selben Fehler
Wie die anderen vor euch

Die Zeit ist hier zu nennen
Als eine wichtige Illusion
Man benutzt sie als Käfig
Indem man sich konditioniert
Nur auf das Kleinste Acht zu geben
Darauf fusst die Frustration, die man fühlt
Denn sie ist zeitlos existent

Du wiederholst, was du kennst
Die Zeit ist das, was dich bestimmt
Gefangen in der Ewigkeit
Zieht dein Leben an dir vorbei

Je mehr du dich auf dieses Spiel einlässt
Desto weiter entfernst du dich
Von deiner eigentlichen Ordnung
Und das, was du als deine Mitte ahnst
Umfasst vielleicht schon weit mehr
Als das, was dich wirklich bestimmt

A Cell

Feel the routine of your heart
Feel the routine of your lungs
Feel the routine of your steps
Feel the routine of your moves
Feel the routine of your dance
Please let your fear fall away

Here comes the ego
And means it's not worth it
Tomorrow will be harder
Than yesterday was

This is a wave reaching you
Through these notes
In your heart may move a stone
These are just words
That's why you hide
Don't blame them for
The pictures you form inside

This is the lowest step for me

Awakening

It's a tricky world we're born into
There's a spiral down prepared for you
All you have to do is to sell your doubts
To the one who pays you the most

Damned into silence
Your heart starts to burn
And money won't soothe the pain caused by a lie

Through seeing a way down
Your chances grow
To find your way out of the plan
To make you feel alone

Do you see?
They are all here
One by one
They open their eyes
And spread their wings right beside you
They start the fight against the lies

Do you see?
They are all here
One by one
They open their eyes
And spread their wings right beside you
They start the fight against the lies

It's a tricky world we're born into
There's a spiral down prepared for you

They start the fight against the lies

Lightwave

Day in and day out, you're moving
You're standing head in the clouds
Acting without emotion
You're waiting
You're saving, holding all back
Hating life for the weather on the weekend
Free chosen feelings are raining back down on you
Your cage is too small for you

Here comes the army of light
Open your heart, there will be no fight
The sword is the word, which brings you the truth
The flame is the light inside your eyes

Here comes the army of light
Open your mind, there is the fight
The sword is the word, revealing the truth
The pain comes from the lies you hide inside

Day in and day out, you're moving

I Am (A Thought in Slowmotion)

First there is an ocean
Then there comes a storm
Then the earth is rising
Out of the deep blue
Yes and no are fighting
And their waves are what you feel
Like this it may be better
Like that it may be worse

Then a new beginning
To feel if it was worth it
Then the first movements
Within this creation
To test its borders
And to prove the ways
And then a new beginning
To see if it was right

Then an ego evolves
And proclaims itself a king
Anchored in time
It is easy to lose the thought
And a thought without emotion
Is what is causing pain

And as I feel pain for what they do
I have to shout - I am

Sinus

Bei der Liebe, dem Licht, dem Wasser, dem Stein, der Welle
Bei der Dunkelheit, dem Schatten, dem Grund, der Bewegung, bei dem Irrtum
Bei der Emotion, der Luft, dem Sturm, der Einsicht
Bei dem Feuer, dem Antrieb, dem Verändernden, der Zuflucht, dem Drängenden
Bei der Liebe, der Güte, dem Verzeihenden, bei dem Verbindenden
Dem Zusammenfügenden, dem Wahren
Bei dem was ist, war und sein wird

Nun wolltest du sein
Nun bist du hier
Nun stoppt die Zeit
Nun ist der Augenblick
Nun warst du schon immer
Nun bist du selbst
Nun magst du erkennen
Du wirst erdacht

Nun wolltest du sein
Nun bist du hier
Nun bist du frei
Nun ist der Augenblick
Nun warst du schon immer
Nun wirst du sein
Nun magst du erkennen
Du wirst gedacht

Du bist so viel mehr
Als die Summe
Der sichtbaren Teile

Nun wolltest du sein
Nun bist du hier
Nun bist du frei
Nun ist der Augenblick
Nun warst du schon immer
Nun wirst du sein
Nun magst du erkennen
Du wirst geliebt

Your Cut Feather

Oh woman, it's such a shame
You are giving life - like earth
That's why we treat you the same
Oh woman you're not to blame
Like earth - you are giving us love
That's why we treat you the same

Oh girl, don't listen to men
When they tell you, you shouldn't
But they tell what you can
Girl, you are the missing part
Of this society which is falling apart

Oh human, when will you be
Like the deeper meaning of reality?
Oh human, don't you see?
You are ignoring one part of humanity

Men, what do we do?
When we tell a direction
Then it's true
Men, what will it be
If we would change
The earth to normality?

What is the difference in here?
It's the direction from which comes the fear
And - why don't they change the way?
Because one part is missing
And earth seems here to stay

The Spoken Mirror

It's inside me and you
Covered with excuses
Hidden very good
I forgot where it was
I never look at it too long
It attracts my interest
As soon as I focus
It's doubting itself and me

Leave me alone in here
I'm too weak to stand a light
You'll regret what you'll see
Because you know you are like me
I'll let your fears come true
I'll show you what you really fear
You better leave me alone
And think your way

Of course I have the answer
It's locked in here
But it's combined with what you fear
Nothing you see can scare you deeper
Than not being in control of yourself
But if you ignore your nature
You lose control over everything

And without control over yourself
You're living your fears
Rather than solving them
And that's irresponsible
And see - external control is an illusion
But everyone is trying to get it so desperate
That the idea of its uselessness
Is becoming really scary

And now I leave you alone
With your fear which is ruling the world
Now I leave you alone
With your fear which is ruling the world

Crepusculum

In the darkness
A flame shines
Like a sun

In a room of light
The same flame
Struggles to be seen

A world of twilight
Was needed
To avoid a flame
To be prejudged
By its own existence
A question isn't infinite
Infinite infinite
My love - sister and brother
Sister and brother
