# If I Could

If I could be the nightmare in your sleep  
I'd like to keep you in your dream  
And you would suffer and feel the pain  
You give to others like it's a game

You give to others like it's a game

Rotten soul, your show is over  
No more happy life in clover  
You fall asleep, we are awake  
Your cold heart pulls you down the lake

Rotten soul, your show is over  
No more happy life in clover  
You fall asleep, we are awake  
Your cold heart pulls you down the lake

If I could be the nightmare in your sleep  
I'd like to keep you in your dream  
There are no words to describe  
How dead and cold you are inside

How dead and cold you are

Rotten soul, your show is over  
No more happy life in clover  
You fall asleep, we are awake  
Your cold heart pulls you down the lake

Rotten soul, your show is over  
No more happy life in clover  
You fall asleep, we are awake  
Your cold heart pulls you down the lake

Come to us, we wait for you  
Come to us, we wait  
Come to us, we wait for you  
Come to us, come to us

You just give pain and you take life  
I'd love to ban you from the hive  
And just some seconds after you see clear  
I'd love to make your might disappear

Rotten soul, your show is over  
No more happy life in clover  
You fall asleep, we are awake  
Our cold hands tug you down the lake

Rotten soul, your show is over  
No more happy life in clover  
You fall asleep, we are awake  
Your cold heart pulls you down the lake

Rotten soul, your show is over  
No more happy life in clover  
You fall asleep, we are awake  
Your cold heart pulls you down the lake

Rotten soul, your show is over  
No more happy life in clover  
You fall asleep, we are awake  
Our cold hands tug you down the lake

Rotten soul, your show is over

No more happy life in clover  
You fall asleep, we are awake  
Your cold heart pulls you down the lake

# Nasty Habit

Good morning, dear - before you move  
Eat this pill, get in the groove!  
Mom and dad believed the fraud  
And took something against that thought!

Medicines against a change  
Nobody recognized the range  
The urge to run locked up inside  
Hooray!  
Pharmacy's always right!

The need to move proclaimed as wrong  
There's so much else we're working on!  
For instance our common foe  
Your evil habit of saying "No!"

The need to move proclaimed as wrong  
There's so much else we're working on!  
For instance our common foe  
Your evil habit of saying "No!"

Your nasty habit of saying "No!"  
Your nasty habit of saying "No!"

Exploding life sent back to hell  
Motion stops - it can't rebel  
We put the answers in a pill  
It will clam down and sit up still!

Good morning, dear - before you move  
Eat this pill, get in the groove!  
Mom and dad believed the fraud  
And took something against that thought!

Medicines against a change  
Nobody recognized the range

# The Tide

Everything moved, every thing trembled  
Time stood still and angels cried  
The origin of our life dissembled  
The yearn for answers crucified

You were all around  
And the stars began to giggle  
As the moon fell to the ground  
The lion evoked a majestic riddle

Until our hearts beat as one again  
And I find shelter in your eyes  
I'll feel the hours  
I'll feel the days  
Just like waves without you

Until our hearts beat as one again  
And I find shelter in your eyes  
I'll feel the hours  
I'll feel the days  
Just like waves without you

You look at me very close  
Billions of worlds rest in your eyes  
You're not aware of it, I suppose  
Everything becomes your size

We simply float on our dreams  
We will see death - this much is sure  
For as long as I hear their screams  
Your kiss will tell me there is no cure

Everything moved, every thing trembled  
Time stood still and angels cried  
The origin of our life dissembled  
The yearn for answers crucified

The moon was told to keep a distance  
No one else could hear our call  
An angel taught the word "resistance!"  
And so the moon began to fall

Until our hearts beat as one again  
And I find shelter in your eyes  
I'll feel the hours  
I'll feel the days  
Just like waves without you

Until our hearts beat as one again  
And I find shelter in your eyes  
I'll feel the hours  
I'll feel the days  
Just like waves without you

## Promises

Yes, sure  
Everything works  
Everything is fine  
Don't you worry  
Go to bed  
It's very safe in our hands  
We'll handle it  
We feed your funny needs  
Trust in us, we will take care  
An incident is very rare

No, no  
It was just a minor glitch  
The leak was repaired without a hitch  
There were good reasons why we didn't call  
There was no danger for people at all

There is no danger for you at all!

Yes, sure  
Everything works now  
Everything is fine  
Don't you worry  
Go to bed  
It's very safe in our hands  
Don't be mean, our work is clean

We guarantee in word and deed  
Trust in us, we will take care  
An incident is very rare

In just ten thousand years from today  
The poison cloud will fade away

Yes, sure  
Everything works  
Everything is fine  
Let me tie the rope around your neck  
Before you all die, please pay the check!

No, no  
It was just a minor glitch  
The leak was repaired without a hitch  
There were good reasons why we didn't call  
There was no danger for people at all

There is no danger for you at all!

## An End

A wall of sound  
Is all around  
Another sphere  
Is very near

All what I see  
In front of me  
Is in my head  
Already dead  
I comprehend  
This is an end

Just come to me and you will see  
What always was and what will be

All of my pain  
Falls down like rain  
All I yearned for  
Is off the shore  
And what I spoke  
Turns into smoke

What could you say? What did you say?  
What could you do? What did you do?  
What could you feel? What did you feel?  
What could you give? What did you take?

I'm loosing me!  
Forever free!  
Now I can see!  
Now I can see!

# Your God

You might think this -  
Like you might think that -  
"There is one god!"  
"There is one god!"

You might think this -  
Like you might think that -  
"There is one god!"  
"There is one god!"

You might think this -  
Like you might think that -  
"There is one god!"  
"There is one god!"

But if it's "Just their god!"  
Who is your god?  
Do you believe in more gods?

But if it's "Just their god!"  
Who is your god?  
Do you believe in more gods?

It it's just "their belief!"  
What is your belief?  
Is it one, or are there more?

It it's just "their belief!"  
What is your belief?  
Is it one, or are there more?

Are you just projecting?  
There are more like you, of course -  
But are you self reflecting?

Are you just projecting?  
There are more like you, of course -  
But are you self reflecting?

You might think this -  
Like you might think that -  
"There is one god!"  
"There is one god!"

You might think this -  
Like you might think that -  
"There is one god!"  
"There is one god!"

But if it's "just their god!"  
Who is your god?  
But if it's "just their god!"  
Who is your god?  
HAVE YOU HEARD OF THE ONE WE GOT RID OF?  
HAVE YOU HEARD OF THE ONE WE GOT RID OF?

But if it's "just their god!"  
Who is your god?  
But if it's "just their god!"  
Who is your god?  
HAVE YOU HEARD OF THE ONE WE GOT RID OF?  
HAVE YOU HEARD OF THE ONE WE GOT RID OF?

HAVE YOU HEARD OF THE ONE WE GOT RID OF?  
HAVE YOU HEARD OF THE ONE WE GOT RID OF?

# Feel!

Another day - another pain  
Another war - another law  
Another girl - another boy  
Another lie - another sky

Another cut - another wound  
Another year - another fear  
Another flood - another storm  
Another fight - another light

What is the freedom that you teach?  
What are the lies that you preach?  
What is the source from where you steal?  
Where is the pain that you can't feel?

HERE IS THE PAIN THAT YOU CAN'T FEEL!

Another man - another word  
Another ray - another day  
Another shot - another dead  
Another bomb - another stomp

Another show - another face  
Another round - another sound  
Another world - another force  
Another life - another strife

What is the freedom that you teach?  
What are the lies that you preach?  
What is the source from where you steal?  
Where is the pain that you can't feel?

HERE IS THE PAIN THAT YOU CAN'T FEEL!

Here is the pain that you *can* feel!

## Full of Life

You are so young and full of life  
Your heart can lift you to the skies  
You are so free, you are so strong  
And you can fell, there's nothing wrong

Time will go on, you'll feel a sting  
And your heart will stop to sing  
You will feel dreadful things instead  
And you will learn that blood is red!

Your life goes on, and day by day  
You will learn how to betray  
A simple lie will cause a stain  
You much too soon got used to pain!

In the beginning was a sound  
And it began to turn around  
But without eyes it couldn't see  
And so it wished itself to be!

You will grow up, you will grow old  
And you will forget what you've been told  
You were so young and full of life  
Your heart did lift you to the skies

You were so free, you were so strong  
Now you can see where you went wrong!

In the beginning was a sound  
And it began to turn around  
But without eyes it couldn't see  
And so it wished itself to be!

# Darkness

In total - in total -  
Absence - absense -  
Of light - of light -  
We're fighting - we fight  
We die - for a lie

Our leader - the leader -  
Want something they got - they got  
He gets rich - and richer  
We rot! (We rot!) We rot!

We kill for college  
We kill for treats  
We kill for a collusion  
Trick war, trick war  
The army of victims in disillusion

# Passion

Stars drip from the skies of passion  
When your tears fall to the ground

Mountains sink into nothing  
When someone screams at you

The sound of birds becomes a roar  
And your lips begin to whisper

"Everyone shall burn in war!"

I created storms and wastelands  
For you to find me in your dream

But only when you seek with passion  
You will run and fly in stream

It goes on and on and on  
Another life, another song
