# Intro

# Chrome

A million faces, each a million lies  
For each and all a chrome disguise  
Prompts for action force reaction  
Embody promise in a sheen so pure  
Hurt, the measure of blind ambition  
The testament to your singular disease  
Against all wisdom you heed no warning  
Your desires giving you away

If I could change your mind  
I wouldn't save you from the path you wander  
In desperation dreams any soul can set you free  
And I still hear you scream  
In every breath, in every single motion  
Burning innocence the fire to set you free

Your actions turn conquest to dust  
In portents of fate you foolishly place trust  
Sense fear in your broken breathing  
Resort to shadows till your body expires  
All creation has the promise of heaven  
And still you travel the road to hell  
I'm saying nothing for the good of myself  
But I'm still talking and you're not listening

If I could change your mind  
I wouldn't save you from the path you wander  
In desperation dreams any soul can set you free  
And I still hear you scream  
In every breath, in every single motion  
Burning innocence the fire to set you free

As night descends upon the city  
The streets are cold, the lights go by  
And in the stories of the people  
A million faces, a million lies  
They'll never say they feel what you feel  
That they can see the world you see  
And in their faces, their expressions  
A million faces, a million lies

# Arena

Before me plays the endless film  
Relentless splinters I recall  
Each living thing breathes life  
Only sentiment remains  
To liquid born, from patterns formed  
The sand descends with blind intent  
Where the river takes me will in time be revealed

I cannot turn my feelings down  
Beyond my means to turn my thoughts around  
Expressed in every word I will ever speak  
Brighter than all the stars combined  
More than the waters, earth and sky  
All that I wish and all that I dream

Above the waves with my hands raised  
Dare the wind, lay claim to me  
Knowing somehow none could take me  
Watching the sun come up in vain  
The only reason I can find why I remained  
The need to leave the point I came to again and again

It didn't matter how hard I tried  
It took so long to claim that I knew how  
Or what it meant to let go of this  
To ever say goodbye  
Call it destiny, call it fate  
Chose my direction: running forward  
Each life to learn anew, whatever may come

I cannot turn my feelings down  
Beyond my means to turn my thoughts around  
Expressed in every word I will ever speak  
Brighter than all the stars combined  
More than the waters, earth and sky  
All that I wish and all that I dream  
No creed on earth can replace or provide  
In my darkest hour, the comfort I'd feel  
Leading me to see I can be more than I expect of me  
My beginning and my end  
The first and last air that I breathe  
More than the sum of everything that I will ever be

In the face of grave defeat  
Are heard cries for mercy  
No barrier of self control  
No innocent composure  
Abusing love and, like a child,  
Inflicting pain upon itself  
When the calling finally comes  
Will there be no one waiting?

In blind despair taken in  
By any glimpse of freedom  
Sell your soul to buy some time  
Infect all your longings  
The thought that god has taken sides  
On the path to breaking down  
Disconnected but not alone  
Scream to the tune of the background noise

Endless thoughts of what is wrong  
Arrive at no conclusion  
On the floor still nursing wounds  
No sense of self to speak of  
The thought that god has taken sides  
On the path to breaking down  
Disconnected but not alone  
Scream to the tune of the background noise

When does enough become enough?  
When does "no" have meaning?

# Endless Skies

How many years since you found yourself  
Staring at an endless sky?

Unaware of yourself  
Who you are and where you're going  
Only living  
Only breathing  
Losing all sense of time

The most fragile of things  
Captivates and embraces you  
Surrender and be witness  
To this rarest of moments

You live within the sense  
Of the order of things  
What is truth  
What is important  
What defines you

No need to fear  
No need to worry  
About years that passed  
About time you lost

Live seconds as a lifetime  
Time it does not matter  
You live within the sense  
Of the stillness of time

# Homeward

The hallowed lands so far behind  
As fleeting dreams still linger  
Like distant voices through the rain  
Like grains of sand cast from my hands

I never thought I'd go this far  
Without a star to cross the seas  
So far from shores I'd left behind  
Still far from shores I've yet to reach

I try to find the strength I need  
To calm the doubts in my beliefs  
With the will, I know my heart won't break

And if I have strength then I've belief  
If I have love my heart still beats  
Here under stars  
Far from home

The picture fades, the light recedes  
The sound is lost in whispers  
My recollections once clear and pure  
Now distant lights that dim with time

I never thought I'd go this far  
Without a star to cross the seas  
So far from shores I'd left behind  
Still far from shores I've yet to reach

# Perpetual

Find it in you, raise your eyes  
Look beyond the place you stand  
Towards the furthest reaches  
And to the smallest of things  
The sound you're hearing  
Is the symphony of what we are  
Revelation will not come  
With heart and mind closed and divided

No need of sun to light the way  
Across the ages, we have reigned as we endured  
Through the storm fronts we will ever surely pass  
To stand as never ending light

Throw away the mantle  
Awake from your uncertain hesitation  
No way to describe or equate the feeling  
No end to what is at your command  
A million thoughts run through you  
Concentric circles, ever greater  
But you have always known  
That this is not all that there is  
To your questions there'll be answers

Let there be, let there always be  
Never ending light
