# Nova (Maestoso)

I long to feel my heart burned open wide, til nothing else remains  
Except the fires from which I came  
Like parted souls, divided for an age  
Awe and wonder I'd embrace and the world anew again

But now, this picture from me fades  
From still's cold hand there's no reprieve  
Light the fire in me

Shine, shine your light on me  
Illuminate me, make me complete  
Lay me down, and wash this world from me  
Open the skies, and burn it all away  
'Cause I've been waiting, all my life just waiting  
For you to shine, shine your light on me

I dreamed the world, with my eyes open  
But time moved on and then, new worlds begin again  
Oh my heart, in this universe so vast  
No moment was made to last, so light the fire in me

Shine, shine your light on me  
Illuminate me, make me complete  
Please shine, shine your light on me  
No hesitation, make me complete

Lay me down, and wash this world from me  
Open the skies, and burn it all away  
'Cause I've been waiting, all my life just waiting  
For you to shine, shine your light on me

# Legion (Vivace con affetto)

Enveloped in a sentiment  
A sound that rushes over me  
Engage an impulse to pretend  
I have a faith as pure

Not forgetting what it means to dream  
Indulging everything  
Entertaining thoughts that I've the strength  
Of those I yearn to be  
Cheers and tribute greet the saviours  
Reckless thoughts survive  
Anachronistic and impulsive

And what will happen? Will I dream?  
I am too scared to close my eyes  
For a second, please hold me  
None can change in me these things that I believe  
But I don't know what happens now  
I am too scared to close my eyes

And what will happen? Will I dream?  
I am too scared to close my eyes  
For a second, please hold me  
None can change in me these things that I believe  
But I don't know what happens now  
I am too scared to close my eyes

Enveloped in a sentiment  
A sound that rushes over me  
Engage an impulse to pretend  
I have a faith as pure

Cheers and tribute greet the saviours  
Reckless thoughts survive  
Anachronistic and impulsive

And what will happen? Will I dream?  
I am too scared to close my eyes  
For a second, please hold me  
None can change in me these things that I believe  
But I don't know what happens now  
I am too scared to close my eyes

# Solitary (Allegro con spirito)

Set me aflame and cast me free  
Away, you wretched world of tethers  
Through the endless night and day  
I have never wanted more  
Always thought that I would stand  
Before the faceless name of justice  
Like some law unto myself  
Like a child of God again

And if rain brings winds of change  
Let it rain on us forever  
I have no doubt from what I've seen  
That I have never wanted more  
With this line I'll mark the past  
As a symbol of beginning  
I have no doubt from what I've seen  
I have never wanted more

In this picture stands a man  
Far away, alone and distant  
Like a solitary field  
In some nameless foreign land  
All around him points of light  
Start to dim and cease transmitting  
Shadows fell on futile games  
And then there was nothing more  
Through the screams of falling steel  
By the light of flares and wisdom  
All the doubts I could not face  
All this time I wanted more  
With a line I mark the past  
As a symbol of beginning  
To the Gods whose names we've lost  
And the names who gave in vain

And if rain brings winds of change  
Let it rain on us forever  
I have no doubt from what I've seen  
I have never wanted more  
With this line I'll mark the past  
As a symbol of beginning  
I have no doubt from what I've seen  
I have never wanted more

Set me aflame and cast me free  
Away, you wretched world of tethers  
Through the endless night and day  
I have never wanted more  
Always thought that I would stand  
Before the faceless name of justice  
Like some law unto myself  
Like a child of God again

And if rain brings winds of change  
Let it rain on us forever  
I have no doubt from what I've seen  
I have never wanted more  
With this line I'll mark the past  
As a symbol of beginning  
I have no doubt from what I've seen  
I have never wanted more

Sever the line to the guilty past

To the ones who brought us nothing  
Spoke of futures brave and proud  
And brought only hate and war  
Line the roads with hollow praise  
Mark the land with paper statues  
Shadows fell on their futile ways  
And then there was nothing more

## Further (Andante appassionato)

At the end of days, at the end of time  
When the sun burns out will any of this matter?  
Who will be there to remember who we were?  
Who will be there to know that any of this had meaning for us?

And in retrospect I'll say we've done no wrong  
Who are we to judge what's right and what has purpose for us?  
With designs upon ourselves to do no wrong,  
Running wild unaware of what might come of us

The sun was born and so it shall die  
So only shadows comfort me  
I know in darkness I will find you giving up inside like me  
Each day shall end as it begins  
And though you're far away from me  
I know in darkness I will find you giving up inside like me

The sun was born and so it shall die  
So only shadows comfort me  
I know in darkness I will find you giving up inside like me  
Each day shall end as it begins  
And though you're far away from me  
I know in darkness I will find you giving up inside like me

Without a thought I will see everything eternal  
Forget that once we were just dust from heavens far  
As we were forged, we shall return perhaps someday  
I will remember us and wonder who we were

The sun was born and so it shall die  
So only shadows comfort me  
I know in darkness I will find you giving up inside like me  
Each day shall end as it begins  
And though you're far away from me  
I know in darkness I will find you giving up inside like me

The sun was born and so it shall die  
So only shadows comfort me  
I know in darkness I will find you giving up inside like me  
Each day shall end as it begins  
And though you're far away from me  
I know in darkness I will find you giving up inside like me

## Perpetual (Allegro espressivo)

Find it in you, raise your eyes  
Look beyond the place you stand  
Towards the furthest reaches  
And to the smallest of things  
The sound you're hearing  
Is the symphony of what we are  
Revelation will not come  
With heart and mind closed and divided

No need of sun to light the way  
Across the ages, we have reigned as we endured  
Through the storm fronts we will ever surely pass  
To stand as never ending light

Throw away the mantle  
Awake from your uncertain hesitation  
No way to describe or equate the feeling  
No end to what is at your command  
A million thoughts run through you  
Concentric circles, ever greater  
But you have always known  
That this is not all that there is  
To your questions there'll be answers

Let there be, let there always be  
Never ending light

## Illusion (Andante grazioso)

I know it's hard to tell how mixed up you feel  
Hoping what you need is behind every door  
Each time you get hurt, I don't want you to change  
Because everyone has hopes, you're human after all  
The feeling sometimes, wishing you were someone else  
Feeling as though you never belong  
This feeling is not sadness, this feeling is not joy  
I truly understand. Please, don't cry now

Please don't go, I want you to stay  
I'm begging you please, please don't leave here  
I don't want you to hate;  
For all the hurt that you feel,  
The world is just illusion, trying to change you

Being like you are  
Well this is something else, who would comprehend?  
But some that do, lay claim  
Divine purpose blesses them  
That's not what I believe, and it doesn't matter anyway  
A part of your soul ties you to the next world  
Or maybe to the last, but I'm still not sure  
But what I do know, is to us the world is different  
As we are to the world but I guess you would know that

Please don't go, I want you to stay  
I'm begging you please, please don't leave here  
I don't want you to hate for all the hurt that you feel  
The world is just illusion trying to change you  
Please don't go, I want you to stay  
I'm begging you please, oh please don't leave here  
I don't want you to change;  
For all the hurt that you feel,  
This world is just illusion, always trying to change you

Please don't go, I want you to stay  
I'm begging you please, please don't leave here  
I don't want you to hate for all the hurt that you feel  
The world is just illusion trying to change you  
Please don't go, I want you to stay  
I'm begging you please, oh please don't leave here  
I don't want you to change;  
For all the hurt that you feel,  
This world is just illusion, always trying to change you

# Sentinel (Moderato sostenuto)

Can we say that we are free?  
Our hands are bound and voices silent  
I'm sure it's not a dream  
I am awake my eyes are open  
I can't accept and won't concede  
In aftermath we find redemption  
The causes that are seized  
And disguised as revolution

Quell the rage that deeply seethes  
The extremes of these devotions  
Dismantle the machine  
The device of their creation

I can't accept and won't concede  
That this is who we are  
The conflict that is seized  
And disguised as greater notions

To the songs that sing of glory and the brave  
Are we dreaming there are better days to come?  
When will the banners and the victory parades  
Celebrate the day a better world was won?

On the day  
The storm has just begun  
I will still hope  
There are better days to come

In the face of what I say  
My words return to anger  
Malevolence in need  
Cannot provide direction  
I won't accept this thought  
That this is who we are  
Positions never change  
Losing all forward motion

Harbour that which deeply seethes  
Temper your devotion  
Dismantle the machine  
The device of your convictions

I can't accept and won't concede  
That this is who we are  
The conflict that is seized  
And disguised as greater notions

To the songs that sing of glory and the brave  
Are we dreaming there are better days to come?  
When will the banners and the victory parades  
Celebrate the day a better world was won?

To the songs that sing of the glory and the brave  
Are we dreaming there are better days to come?  
When will the banners and the victory parades  
Celebrate the day a better world was won?

On the day the storm has just begun  
I will still hope there are better days to come

On the day the storm has just begun  
I will still hope there are better days to come

# Standing (Moderato declamando)

Eyes betray the soul and bear its thinking  
Beyond words, they say so many things to me  
A stranger here, reborn it seems  
Awaking wonders deep in me  
If nothing's ventured, nothing's gained  
So I must seize the day

And fighting time, so hard I pray  
That this moment lasts forever  
And will the world stay standing still, at least for me?  
Through my eyes, stare into me  
I bear my heart for all to see  
With my face turned to the sun, there ever standing still

It wasn't you, it wasn't me, it wasn't anything  
It was a day so long awaited and a chance to be as me  
I let the wind run through my hands  
Before I turned to walk away  
In distant days, I long to sense it all so clear

And fighting time, so hard I pray  
That this moment lasts forever  
And will the world stay standing still, at least for me?  
Through my eyes, stare into me  
I bear my heart for all to see  
With my face turned to the sun, there ever standing still

And fighting time, so much I ask  
I will this moment last forever  
Though seasons change, things come to pass  
Remain inside of me  
And fighting time, so hard I pray  
That this moment lasts forever  
And will the world stay standing still, at least for me?

I had no faith before that time in any vow or deed  
Days followed days and years were meaningless  
Despite the wisdom of defeat  
I bore my heart for all to see the wonders I'd seen  
The wonders I'd seen

And fighting time, so hard I pray  
That this moment lasts forever  
And will the world stay standing still, at least for me?  
Through my eyes, stare into me  
I bear my heart for all to see  
With my face turned to the sun, there ever standing still

And fighting time, so much I ask  
I will this moment last forever  
Though seasons change, things come to pass  
Remain inside of me  
And fighting time, so hard I pray  
That this moment lasts forever  
And will the world stay standing still, at least for me?

# Beloved (Allegro grazioso)

It's colder than before  
The seasons took all they had come for  
Now winter dances here  
It seems so fitting, don't you think?  
To dress the ground in white and grey

It's so quiet I can hear  
My thoughts touching every second  
That I spent waiting for you  
Circumstances afford me  
No second chance to tell you  
How much I've missed you

My beloved, do you know  
When the warm wind comes again  
Another year will start to pass  
And please don't ask me why I'm here  
Something deeper brought me  
Than a need to remember

We were once young and blessed with wings  
No heights could keep us from their reach  
No sacred place we did not soar  
Still greater things burned within us  
I don't regret the choices that I've made  
I know you feel the same

My beloved, do you know  
How many times I stared at clouds  
Thinking that I saw you there  
These are feelings that do not pass so easily  
I can't forget what we claimed was ours

Moments lost, though time remains  
I am so proud of what we were  
No pain remains, no feeling  
Eternity awaits  
Grant me wings that I might fly  
My restless soul is longing  
No pain remains, no feeling  
Eternity awaits

My beloved, do you know  
When the warm wind comes again  
Another year will start to pass  
And please don't ask me why I'm here  
Something deeper brought me  
Than a need to remember

My beloved, do you know  
How many times I stared at clouds  
Thinking that I saw you there  
These are feelings that do not pass so easily  
I can't forget what we claimed as ours

Moments lost, though time remains  
I am so proud of what we were  
No pain remains, no feeling  
Eternity awaits  
Grant me wings that I might fly  
My restless soul is longing  
No pain remains, no feeling  
Eternity awaits

Moments lost, though time remains  
I am so proud of what we were  
No pain remains, no feeling  
Eternity awaits  
Grant me wings that I might fly  
My restless soul is longing  
No pain remains, no feeling  
Eternity awaits

Moments lost, though time remains  
I am so proud of what we were  
No pain remains, no feeling  
Eternity awaits  
Grant me wings that I might fly  
My restless soul is longing  
No pain remains, no feeling  
Eternity awaits

# Resolution (Allegro con fuoco)

No pride to feel, no waiting country  
No parades to line your way  
Though your hands may bleed, and your body may lie broken  
Every storm must soon give away

Raise your head up high  
Raise your head up high  
So the heavens hear you cry  
Light the brightest fire  
From the highest mountain  
So the whole world knows  
That your spirit can't be broken

The rage you feel will consume you and destroy you  
Let this rage inside you die  
One day, you'll find the signs in every motion  
Close your eyes so you might see  
I will hold you still, every second of every hour  
Let your actions speak your will

Raise your head up high  
Raise your head up high  
So the heavens hear you cry  
Light the brightest fire  
From the highest mountain  
So the whole world knows  
That your spirit can't be broken

Give up your fear  
These senseless longings  
Let this pain inside you die

Raise your head up high  
Raise your head up high  
So the heavens hear you cry  
Light the brightest fire  
From the highest mountain  
So the whole world knows  
That your spirit can't be broken
