#### Nova (Maestoso)

I long to feel my heart burned open wide, til nothing else remains Except the fires from which I came
Like parted souls, divided for an age
Awe and wonder I'd embrace and the world anew again

But now, this picture from me fades From still's cold hand there's no reprieve Light the fire in me

Shine, shine your light on me
Illuminate me, make me complete
Lay me down, and wash this world from me
Open the skies, and burn it all away
'Cause I've been waiting, all my life just waiting
For you to shine, shine your light on me

I dreamed the world, with my eyes open But time moved on and then, new worlds begin again Oh my heart, in this universe so vast No moment was made to last, so light the fire in me

Shine, shine your light on me Illuminate me, make me complete Please shine, shine your light on me No hesitation, make me complete

Lay me down, and wash this world from me Open the skies, and burn it all away 'Cause I've been waiting, all my life just waiting For you to shine, shine your light on me

# Legion (Vivace con affetto)

Enveloped in a sentiment A sound that rushes over me Engage an impulse to pretend I have a faith as pure

Not forgetting what it means to dream Indulging everything
Entertaining thoughts that I've the strength Of those I yearn to be
Cheers and tribute greet the saviours
Reckless thoughts survive
Anachronistic and impulsive

And what will happen? Will I dream?
I am too scared to close my eyes
For a second, please hold me
None can change in me these things that I believe
But I don't know what happens now
I am too scared to close my eyes

And what will happen? Will I dream?
I am too scared to close my eyes
For a second, please hold me
None can change in me these things that I believe
But I don't know what happens now
I am too scared to close my eyes

Enveloped in a sentiment A sound that rushes over me Engage an impulse to pretend I have a faith as pure

Cheers and tribute greet the saviours Reckless thoughts survive Anachronistic and impulsive

And what will happen? Will I dream?
I am too scared to close my eyes
For a second, please hold me
None can change in me these things that I believe
But I don't know what happens now
I am too scared to close my eyes

# Solitary (Allegro con spirito)

Set me aflame and cast me free Away, you wretched world of tethers Through the endless night and day I have never wanted more Always thought that I would stand Before the faceless name of justice Like some law unto myself Like a child of God again

And if rain brings winds of change Let it rain on us forever I have no doubt from what I've seen That I have never wanted more With this line I'll mark the past As a symbol of beginning I have no doubt from what I've seen I have never wanted more

In this picture stands a man Far away, alone and distant Like a solitary field In some nameless foreign land All around him points of light Start to dim and cease transmitting Shadows fell on futile games And then there was nothing more Through the screams of falling steel By the light of flares and wisdom All the doubts I could not face All this time I wanted more With a line I mark the past As a symbol of beginning To the Gods whose names we've lost And the names who gave in vain

And if rain brings winds of change
Let it rain on us forever
I have no doubt from what I've seen
I have never wanted more
With this line I'll mark the past
As a symbol of beginning
I have no doubt from what I've seen
I have never wanted more

Set me aflame and cast me free Away, you wretched world of tethers Through the endless night and day I have never wanted more Always thought that I would stand Before the faceless name of justice Like some law unto myself Like a child of God again

And if rain brings winds of change
Let it rain on us forever
I have no doubt from what I've seen
I have never wanted more
With this line I'll mark the past
As a symbol of beginning
I have no doubt from what I've seen
I have never wanted more

Sever the line to the guilty past

To the ones who brought us nothing Spoke of futures brave and proud And brought only hate and war Line the roads with hollow praise Mark the land with paper statues Shadows fell on their futile ways And then there was nothing more

### Further (Andante appassionato)

At the end of days, at the end of time
When the sun burns out will any of this matter?
Who will be there to remember who we were?
Who will be there to know that any of this had meaning for us?

And in retrospect I'll say we've done no wrong Who are we to judge what's right and what has purpose for us? With designs upon ourselves to do no wrong, Running wild unaware of what might come of us

The sun was born and so it shall die
So only shadows comfort me
I know in darkness I will find you giving up inside like me
Each day shall end as it begins
And though you're far away from me
I know in darkness I will find you giving up inside like me

The sun was born and so it shall die
So only shadows comfort me
I know in darkness I will find you giving up inside like me
Each day shall end as it begins
And though you're far away from me
I know in darkness I will find you giving up inside like me

Without a thought I will see everything eternal Forget that once we were just dust from heavens far As we were forged, we shall return perhaps someday I will remember us and wonder who we were

The sun was born and so it shall die
So only shadows comfort me
I know in darkness I will find you giving up inside like me
Each day shall end as it begins
And though you're far away from me
I know in darkness I will find you giving up inside like me

The sun was born and so it shall die
So only shadows comfort me
I know in darkness I will find you giving up inside like me
Each day shall end as it begins
And though you're far away from me
I know in darkness I will find you giving up inside like me

# Perpetual (Allegro espressivo)

Find it in you, raise your eyes
Look beyond the place you stand
Towards the furthest reaches
And to the smallest of things
The sound you're hearing
Is the symphony of what we are
Revelation will not come
With heart and mind closed and divided

No need of sun to light the way Across the ages, we have reigned as we endured Through the storm fronts we will ever surely pass To stand as never ending light

Throw away the mantle
Awake from your uncertain hesitation
No way to describe or equate the feeling
No end to what is at your command
A million thoughts run through you
Concentric circles, ever greater
But you have always known
That this is not all that there is
To your questions there'll be answers

Let there be, let there always be Never ending light

# Illusion (Andante grazioso)

I know it's hard to tell how mixed up you feel
Hoping what you need is behind every door
Each time you get hurt, I don't want you to change
Because everyone has hopes, you're human after all
The feeling sometimes, wishing you were someone else
Feeling as though you never belong
This feeling is not sadness, this feeling is not joy
I truly understand. Please, don't cry now

Please don't go, I want you to stay I'm begging you please, please don't leave here I don't want you to hate; For all the hurt that you feel, The world is just illusion, trying to change you

Being like you are
Well this is something else, who would comprehend?
But some that do, lay claim
Divine purpose blesses them
That's not what I believe, and it doesn't matter anyway
A part of your soul ties you to the next world
Or maybe to the last, but I'm still not sure
But what I do know, is to us the world is different
As we are to the world but I guess you would know that

Please don't go, I want you to stay
I'm begging you please, please don't leave here
I don't want you to hate for all the hurt that you feel
The world is just illusion trying to change you
Please don't go, I want you to stay
I'm begging you please, oh please don't leave here
I don't want you to change;
For all the hurt that you feel,
This world is just illusion, always trying to change you

Please don't go, I want you to stay
I'm begging you please, please don't leave here
I don't want you to hate for all the hurt that you feel
The world is just illusion trying to change you
Please don't go, I want you to stay
I'm begging you please, oh please don't leave here
I don't want you to change;
For all the hurt that you feel,
This world is just illusion, always trying to change you

#### Sentinel (Moderato sostenuto)

Can we say that we are free?
Our hands are bound and voices silent
I'm sure it's not a dream
I am awake my eyes are open
I can't accept and won't concede
In aftermath we find redemption
The causes that are seized
And disguised as revolution

Quell the rage that deeply seethes The extremes of these devotions Dismantle the machine The device of their creation

I can't accept and won't concede That this is who we are The conflict that is seized And disguised as greater notions

To the songs that sing of glory and the brave Are we dreaming there are better days to come? When will the banners and the victory parades Celebrate the day a better world was won?

On the day The storm has just begun I will still hope There are better days to come

In the face of what I say My words return to anger Malevolence in need Cannot provide direction I won't accept this thought That this is who we are Positions never change Losing all forward motion

Harbour that which deeply seethes Temper your devotion Dismantle the machine The device of your convictions

I can't accept and won't concede That this is who we are The conflict that is seized And disguised as greater notions

To the songs that sing of glory and the brave Are we dreaming there are better days to come? When will the banners and the victory parades Celebrate the day a better world was won?

To the songs that sing of the glory and the brave Are we dreaming there are better days to come? When will the banners and the victory parades Celebrate the day a better world was won?

On the day the storm has just begun I will still hope there are better days to come

On the day the storm has just begun I will still hope there are better days to come

## Standing (Moderato declamando)

Eyes betray the soul and bear its thinking Beyond words, they say so many things to me A stranger here, reborn it seems Awaking wonders deep in me If nothing's ventured, nothing's gained So I must seize the day

And fighting time, so hard I pray
That this moment lasts forever
And will the world stay standing still, at least for me?
Through my eyes, stare into me
I bear my heart for all to see
With my face turned to the sun, there ever standing still

It wasn't you, it wasn't me, it wasn't anything
It was a day so long awaited and a chance to be as me
I let the wind run through my hands
Before I turned to walk away
In distant days, I long to sense it all so clear

And fighting time, so hard I pray
That this moment lasts forever
And will the world stay standing still, at least for me?
Through my eyes, stare into me
I bear my heart for all to see
With my face turned to the sun, there ever standing still

And fighting time, so much I ask
I will this moment last forever
Though seasons change, things come to pass
Remain inside of me
And fighting time, so hard I pray
That this moment lasts forever
And will the world stay standing still, at least for me?

I had no faith before that time in any vow or deed Days followed days and years were meaningless Despite the wisdom of defeat I bore my heart for all to see the wonders I'd seen The wonders I'd seen

And fighting time, so hard I pray
That this moment lasts forever
And will the world stay standing still, at least for me?
Through my eyes, stare into me
I bear my heart for all to see
With my face turned to the sun, there ever standing still

And fighting time, so much I ask
I will this moment last forever
Though seasons change, things come to pass
Remain inside of me
And fighting time, so hard I pray
That this moment lasts forever
And will the world stay standing still, at least for me?

## Beloved (Allegro grazioso)

It's colder than before
The seasons took all they had come for
Now winter dances here
It seems so fitting, don't you think?
To dress the ground in white and grey

It's so quiet I can hear My thoughts touching every second That I spent waiting for you Circumstances afford me No second chance to tell you How much I've missed you

My beloved, do you know When the warm wind comes again Another year will start to pass And please don't ask me why I'm here Something deeper brought me Than a need to remember

We were once young and blessed with wings No heights could keep us from their reach No sacred place we did not soar Still greater things burned within us I don't regret the choices that I've made I know you feel the same

My beloved, do you know How many times I stared at clouds Thinking that I saw you there These are feelings that do not pass so easily I can't forget what we claimed was ours

Moments lost, though time remains I am so proud of what we were No pain remains, no feeling Eternity awaits
Grant me wings that I might fly
My restless soul is longing
No pain remains, no feeling
Eternity awaits

My beloved, do you know
When the warm wind comes again
Another year will start to pass
And please don't ask me why I'm here
Something deeper brought me
Than a need to remember

My beloved, do you know How many times I stared at clouds Thinking that I saw you there These are feelings that do not pass so easily I can't forget what we claimed as ours

Moments lost, though time remains I am so proud of what we were No pain remains, no feeling Eternity awaits
Grant me wings that I might fly My restless soul is longing
No pain remains, no feeling
Eternity awaits

Moments lost, though time remains I am so proud of what we were No pain remains, no feeling Eternity awaits
Grant me wings that I might fly My restless soul is longing
No pain remains, no feeling
Eternity awaits

Moments lost, though time remains I am so proud of what we were No pain remains, no feeling Eternity awaits
Grant me wings that I might fly My restless soul is longing
No pain remains, no feeling
Eternity awaits

# Resolution (Allegro con fuoco)

No pride to feel, no waiting country No parades to line your way Though your hands may bleed, and your body may lie broken Every storm must soon give away

Raise your head up high
Raise your head up high
So the heavens hear you cry
Light the brightest fire
From the highest mountain
So the whole world knows
That your spirit can't be broken

The rage you feel will consume you and destroy you Let this rage inside you die One day, you'll find the signs in every motion Close your eyes so you might see I will hold you still, every second of every hour Let your actions speak your will

Raise your head up high
Raise your head up high
So the heavens hear you cry
Light the brightest fire
From the highest mountain
So the whole world knows
That your spirit can't be broken

Give up your fear These senseless longings Let this pain inside you die

Raise your head up high Raise your head up high So the heavens hear you cry Light the brightest fire From the highest mountain So the whole world knows That your spirit can't be broken
